SUPPLEMENT TO

The Calcutta Gazette.

Published by Authority.

WEDNESDAY, JULY 27, 1836.

FORT WILLIAM,
GENERAL DEPARTMENT, THE 26TH JUNE 1832.

ALL Public Officers of Government sending Advertisements to the *Calcutta Gazette* for publication, are hereby directed to make them as short as possible, and to specify always how many times the Advertisement shall be repeated.

By Order of the Hon'ble the Vice President in Council,

H. T. PRINSEP, *Secy. to the Govt.*

FORT WILLIAM,
FINANCIAL DEPARTMENT, THE 15TH JUNE, 1836.

NOTICE is hereby given, that under instructions just received from the Honorable Court of Directors, the following Terms and Conditions for making Advances upon the Goods and Merchandise of Individuals intended for Consignment to England re-payable to the Court of Directors of the East India Company, have been substituted for those contained in the Advertisement of this Department, dated the 27th October 1834.

1st.—The parties to whom Advances may be made shall agree that the respective Consignments be delivered into such Warehouses as the Court of Directors may approve: and that they be subject to the Control of the Court of Directors until the lien of the Company upon the Consignment shall have been satisfied.

2d.—Upon each Consignment, the value of which is to be ascertained by the Officers of the Indian Governments, or Authorized Agents of the East India Company, an Advance not exceeding two-thirds of such ascertained value will be made.

3d.—For re-payment of the Advance, Bills of Exchange to be drawn in triplicate, at six months sight, at the rate of—

a. d.	Per Company's Rupee for Advances made at	Bengal.
	Ditto	Ditto..... Madras.
	Ditto	Ditto..... Bombay.
	Per Spanish Dollar, Ditto.....	China.

4th.—The Parties will be required to place in the hands of the Board of Customs, Salt and Opium, Bills of Lading of the Consignment and Policies of Insurance effected thereon, both in triplicate. The Bills of Lading must be drawn deliverable to the East India Company, or endorsed to the order of the East India Company. The Policies of Insurance must be effected in the name and on behalf of the East India Company, as the Parties interested, or endorsed to their order; but persons desirous of effecting the necessary Insurance in this Country, and of depositing the Policies in the Company's Treasury, will be allowed to do so.

5th.—In case of default being made either in acceptance, or payment of the Bills, the Court of Directors to be authorized, in such manner and at such times as they may see fit, to sell the Goods, for the purpose of re-paying the Company the

amount of the Advances made thereon, including Freight and any other charges or expenses which the Company may have incurred on account of the Consignment, together with interest, should any have accrued; the Company, on the other hand, allowing discount, where any part of the proceeds shall be realized before the Bills fall due, and the settlement of either surplus or deficiency shall be made with the Consignor; and if in India or China by the Government or Agents from whom he received the Advance, at the rate of exchange at which the Company may at the time be drawing Bills upon such Government or Agents.

6th.—An Agent in England shall be appointed for each Consignment, to whom the Court of Directors shall be empowered to make over the Goods, subject to all the conditions agreed upon with the Company, on payment of the Bills; and with whom they shall be authorized to transact generally all business relating to such Goods. The Consignor shall be at liberty to make provision, in case of the Party upon whom the Bill is drawn, (being also the Agent) having failed to accept the Bill, for the substitution of another Agent.

7th.—After the arrival of the Goods in England, and when they shall have been placed in such deposit as may have been agreed upon, the Agent may be put into possession of them before the Bills become due, upon the amount of such Bills (less discount) being paid, together with the Freight and any other charges and expenses which the Company have paid or may be subject to on account of the Goods.

8th.—The rate of Discount to be allowed by the Company shall be the same as that charged by the Bank of England.

9th.—It is expected that Parties or their Agents will cause the Goods to be Insured from fire, such Insurance to take effect from the date of the termination of the Sea risk; as the East India Company will not undertake to effect any Insurance upon them.

10th.—Parties receiving Advances, to address in each instance a Letter in quadruplicate to the Court of Directors, according to a form which will be furnished by the Officers of Government (or authorized Agents of the East India Company), signifying their assent to all the foregoing conditions, but more particularly for the purpose of expressly authorizing the sale of the Goods by the Company (without either notice to or concurrence of any person whomsoever) at any period after default shall be made either in acceptance or payment of the Bills; also authorizing, in such cases, the re-paying to the Company the Advances made, either principal or interest, together with any other charges or expenses which the Company may have incurred in respect of the Goods, and appointing the Agent in England for each transaction.

By Order of the Marine Board,

Fort William, the 14th July, 1836.

C. B. GREENLAW, Secretary.

The Calcutta Gazette.

Published by Authority.

It is requested that Government Notifications for the Calcutta Gazette, of any length, may be sent to the Press before Noon of Friday, and those of a few lines only before 5 P. M. of that day.

SATURDAY, JULY 30, 1836.

FORT WILLIAM,
GENERAL DEPARTMENT, THE 26TH JUNE 1832.

ALL Public Officers of Government sending Advertisements to the Calcutta Gazette for publication, are hereby directed to make them as short as possible, and to specify always how many times the Advertisement shall be repeated.

By Order of the Hon'ble the Vice President in Council,

H. T. PRINSEP, Secy. to the Govt.

FORT WILLIAM,
FINANCIAL DEPARTMENT, THE 15TH JUNE, 1836.

NOTICE is hereby given, that under instructions just received from the Honorable Court of Directors, the following Terms and Conditions for making Advances upon the Goods and Merchandise of Individuals intended for Consignment to England re-payable to the Court of Directors of the East India Company, have been substituted for those contained in the Advertisement of this Department, dated the 27th October 1834.

1st.—The parties to whom Advances may be made shall agree that the respective Consignments be delivered into such Warehouses as the Court of Directors may approve: and that they be subject to the Control of the Court of Directors until the lien of the Company upon the Consignment shall have been satisfied.

2d.—Upon each Consignment, the value of which is to be ascertained by the Officers of the Indian Government, or Authorized Agents of the East India Company, an Advance not exceeding two-thirds of such ascertained value will be made.

3d.—For re-payment of the Advance, Bills of Exchange to be drawn in triplicate, at six months sight, at the rate of—

s. d.	Per Company's Rupee for Advances made at	Bengal.
	Ditto	Ditto..... Madras.
	Ditto	Ditto..... Bombay.
	Per Spanish Dollar, Ditto.....	China.

4th.—The Parties will be required to place in the hands of the Board of Customs, Salt and Opium, Bills of Lading of the Consignment and Policies of Insurance effected thereon, both in triplicate. The Bills of Lading must be drawn deliverable to the East India Company, or endorsed to the order of the East India Company. The Policies of Insurance must be effected in the name and on behalf of the East India Company, as the Parties interested, or endorsed to their order; but persons desirous of effecting the necessary Insurance in this Country, and of depositing the Policies in the Company's Treasury, will be allowed to do so.

5th.—In case of default being made either in acceptance, or payment of the Bills, the Court of Directors to be authorized, in such manner and at such times as they may see fit, to sell the Goods, for the purpose of re-paying the Company the

amount of the Advances made thereon, including Freight and any other charges or expenses which the Company may have incurred on account of the Consignment, together with interest, should any have accrued; the Company, on the other hand, allowing discount, where any part of the proceeds shall be realized before the Bills fall due, and the settlement of either surplus or deficiency shall be made with the Consignor; and if in India or China by the Government or Agents from whom he received the Advance, at the rate of exchange at which the Company may at the time be drawing Bills upon such Government or Agents.

6th.—An Agent in England shall be appointed for each Consignment, to whom the Court of Directors shall be empowered to make over the Goods, subject to all the conditions agreed upon with the Company, on payment of the Bills; and with whom they shall be authorized to transact generally all business relating to such Goods. The Consignor shall be at liberty to make provision, in case of the Party upon whom the Bill is drawn, (being also the Agent) having failed to accept the Bill, for the substitution of another Agent.

7th.—After the arrival of the Goods in England, and when they shall have been placed in such deposit as may have been agreed upon, the Agent may be put into possession of them before the Bills become due, upon the amount of such Bills (less discount) being paid, together with the Freight and any other charges and expenses which the Company have paid or may be subject to on account of the Goods.

8th.—The rate of Discount to be allowed by the Company shall be the same as that charged by the Bank of England.

9th.—It is expected that Parties or their Agents will cause the Goods to be Insured from fire, such Insurance to take effect from the date of the termination of the Sea risk; as the East India Company will not undertake to effect any Insurance upon them.

10th.—Parties receiving Advances, to address in each instance a Letter in quadruplicate to the Court of Directors, according to a form which will be furnished by the Officers of Government (or authorized Agents of the East India Company), signifying their assent to all the foregoing conditions, but more particularly for the purpose of expressly authorizing the sale of the Goods by the Company (without either notice to or concurrence of any person whomsoever) at any period after default shall be made either in acceptance or payment of the Bills; also authorizing, in such cases, the re-paying to the Company the Advances made, either principal or interest, together with any other charges or expenses which the Company may have incurred in respect of the Goods, and appointing the Agent in England for each transaction.

(No. 1304.)

**FORT WILLIAM,
JUDICIAL AND REVENUE DEPARTMENT,
THE 30TH JULY, 1836.**

With a view to the improvement of the scheme at present in force with regard to the nomination of Sudder Ameens and Principal Sudder Ameens, and to the introduction of a system of promotion throughout the subordinate classes of Judicial Functionaries, which by giving advantages to merit and by exciting honorable emulation, shall tend to encourage exertion and uprightness of conduct, and to connect the faithful discharge of duty with its legitimate rewards—The Right Honorable the Governor of Bengal has been pleased to prescribe, and to publish for general information, the following Rules of Nomination and Promotion:

Firstly. That the Zillah Judges nominate as at present, through the Commissioner of the Division to the Court of Sudder Dewanny Adawlut, all individuals proposed for the situation of Moonsiff.

Secondly. That the Judge of each District furnish annually to the Court of Sudder Dewanny Adawlut, a List containing the names of the three most zealous, capable, and trustworthy Moonsiffs within his jurisdiction, and that the names in such List be entered, if possible, in the order of estimated merit, or the names of those whose claims to promotion are considered equal inserted in a bracket.

Thirdly. That on any vacancy occurring in a Sudder Ameenship, by death, removal from office, or other cause, the Court of Sudder Dewanny Adawlut shall select from the several District Lists, (after calling for any information which they may deem requisite with respect to any of the nominees, and referring to the Records of their own office), and submit for the consideration of Government the names of the three Moonsiffs best qualified in their judgment to fill the vacant appointment.

Fourthly. That on any vacancy occurring in a Principal Sudder Ameenship, the Court of Sudder Dewanny Adawlut shall select and nominate to Government the three Sudder Ameens best qualified in their judgment to fill the vacant appointment.

Fifthly. That in every practicable case, the Rule with regard to order of nomination, or indication of estimated equality by brackets laid down at the close of the second article, be observed by the Sudder Court.

Note.—With reference to the third article it must be understood, that the Governor reserves to himself the power of appointing any duly qualified individual, although he have not been recommended by the Court, nor have served as a Moonsiff, to a vacant Sudder Ameenship. But no person who has not served in the grade of Sudder Ameen, will be considered eligible for a Principal Sudder Ameenship.

NOTICE.—With reference to the Notification of the intended Establishment of a Light House at Pondichery by the French Government, dated the 10th March last, the following further Notice, in continuation thereof dated the 25th May last, is published for general information.

NOTICE.

The Public have been apprized by the printed Notice dated the 10th March, 1836, that the Light House of Pondichery would be lighted on the 1st July next.

In accordance with the arrangements of Article 1st of the Resolution passed in Council on the 25th November, 1835, this Notice is again given to the Commercial Community, who are informed that from the 1st July next a Light House Duty will be levied.

This fixed Duty will amount to Fifteen Cents, per Ton and to be paid by all Vessels, three masted, Brigs, Schooners, from whatever place they may come, and of whatever origin they may be.

The Light House Duty will be settled and collected by the proper Authorities of the Port at the same time with that of the Anchorage.

No Vessel will be allowed to have Clearance until the Light House Duty has been paid.

The Dhonies are exempted from the Light House Duty.

LIGHT AT FALSE POINT—BAY OF BENGAL NOTICE.

REFERRING to the Notice published from this Office under date 21st January last, communicating the abandonment of the Light at Point Palmyras—Notice is now given, that on the 1st day of March 1837, a Light will be exhibited at False Point on a building to be there erected.

The Light House will stand in Latitude $20^{\circ} 19' 25''$ N., and Longitude $86^{\circ} 48' 8''$ E. During the S. W. Monsoon of the year 1837, the Light will be exhibited from an elevation of about 65 feet above high water mark, and be visible in clear weather at a distance of about 13 miles from an elevation of 15 feet above the surface of the sea.

The Light will be continued at this height until the end of November, after which it will be discontinued, in order to the removal of the Lantern to the top of the building. It will subsequently, viz. on and after the 1st March 1838 be again exhibited at an elevation of 120 feet above high water mark, and be then visible from 18 to 20 miles in clear weather from the height of 15 feet from the surface of the sea.

The Pilot's Station will be continued as heretofore off Point Palmyras during the S. W. Monsoon, that is, from the 15th of March to the 15th September, during which period the Pilot Vessels cruise during the day off the Point, anchoring during the night in a Line East and West in Latitude $20^{\circ} 42'$ to $20^{\circ} 48'$ N. with the Point bearing W. to W. by S., the Vessel, on board of which the next turn Pilot may be, will burn a Blue Light and fire a Maroon alternately every half hour, commencing with the former at eight o'clock and continuing till daylight.

Commanders on making the Light on False Point are recommended after bringing it to bear West in from 13 to 14 fathoms to steer to the N. E., keeping in from 13 to 18 fathoms as the wind may hang to the Westward or Eastward—on no account coming under the former depth. In this track the Blue Light and Maroon above-mentioned will be seen long before the Light on False Point is lost sight of. If, however, about the beginning of September the wind comes from the Eastward or the weather assumes a threatening appearance, the Pilot Vessels necessarily haul off to the Eastward and will then be found in a Line between Point Palmyras and the Floating Light at the entrance of the Eastern Channel. Vessels therefore about that period if the wind hangs to the Eastward or has a threatening appearance are recommended after leaving False Point on no account to approach Point Palmyras, but rather to endeavour to make for the Floating Light at the entrance of the Eastern Channel; and it is further notified that from the 15th September no Pilot Vessel will be found to the Westward of the Western Sea Reef.

From the 15th September to the 15th March, the Pilot Vessels cruise during the day between Saugor Sand and the Western Sea Reef, anchoring in the night East and West of each other in Latitude 21° to $21^{\circ} 10'$ North.

Vessels approaching either Station during the day are requested to make for that Vessel on board of which they will see a large Red Flag flying at the main whenever they can do so without great inconvenience or delay. In the night during the N. E. Monsoon, that is, from 15th September to 15th March at the Floating Light Station at the entrance of the Eastern Channel, the Vessel having the next turn Pilot on board will burn a Maroon every hour and in thick weather every half hour, and as before stated at the Point Palmyras Station during the S. W. Monsoon, or between 15th March and 15th September, such Vessel will alternately burn a Blue Light and Maroon every half hour. Commanders are in like manner requested during the night to seek their Pilot from such Vessel, it being however understood that any Pilot Vessel which may be first seen is bound immediately to use every exertion to put a Pilot on board night or day without reference to turn or rotation, and that this latter is only allowed when no delay is occasioned thereby.

By Order of the Marine Board,

C. B. GREENLAW, Secretary.

Fort William, the 19th July, 1836.

POST OFFICE NOTICE.

THE *Hugh Lindsay*, Steamer, is to be despatched from Bombay, on the 16th day of September next, for Korna, in the Persian Gulph, (stated by Colonel Chesney to be preferable to Bussorah on many accounts,) with a General Mail from all the Presidencies of India.

It is expected that the Steamer would reach Korna by the end of September, and that Col. Chesney might commence his ascent of the Euphrates early in October, and deposit the Mails at Scanderoon on the 24th of that month; from whence they would be conveyed to Malta. A communication has accordingly been made to Col. Chesney, with instructions to make every arrangement in the Mediterranean for the conveyance of the Mails to England.

N. B. Parties applying for the above Packages, will be pleased to send Invoices, or Bills, shewing contents and value, and to depute persons to be present at the opening of them at this Office. The Collector has nothing to do with the business of Landing Packages from Ships, nor with forwarding them to their owners, or their destination.

The fact of Articles being destined for PRIVATE USE, and not for Sale, does not exempt them from payment of Duty, if they be of a kind which is chargeable with Duty under the Regulation.

PUBLISHED FOR GENERAL INFORMATION.

Office of Committee of Privy Council for Trade,
Whitehall, 27th November, 1835.

SIR,

The Lords of the Committee of Privy Council for Trade have considered the Report of the Commissioners of Customs, transmitted in your Letter of the 5th Instant, relative to the admission of British Goods as such into the Mauritius from British Places in India, and their Lordships have directed me to state to you their opinion, that altho' such Goods are importable into our West India Islands only from the United Kingdom or from some other British Possession in America; it does not seem that the Mauritius, which is in a different Hemisphere, should be confined to the same channels of supply. The Legislature in drawing this Regulation had the American Colonies only in its mind, and it did by a subsequent enactment declare, that the Regulations affecting those Colonies should also embrace the Mauritius so far as any such Regulations can or may be applied. To the application of this particular Regulation, there is a strong geographical impediment, and the spirit of the Regulation should seem to require, that the Mauritius should stand in the same relation towards our Eastern Possessions, as Jamaica stands in towards those in the West; that is to say, that British Manufactures should be received into the Mauritius from Calcutta upon the same terms as those upon which they are received into Jamaica from Halifax. The Governor of the Mauritius appears to have viewed this Regulation in this spirit, and in the exercise of his discretionary powers, he has for several years permitted the Importations in question to be made. The Lords of this Committee are therefore the less disposed to recommend the enforcement of the Law according to its express working, but consider that the reservation as to the applicability of Regulations may with propriety be made use of so far as to admit British Produce or Manufactures as such into the Mauritius from any of the British Possessions within the limits of the East India Company's Charter. I am accordingly to request that you will move the Lords Commissioners of His Majesty's Treasury to consider whether they will not be pleased to confirm the orders given by the Governor of the Mauritius, and to relieve the several Importers from the Bonds they have been required in the meanwhile to give.

I am, Sir,

&c. &c. &c.

Treasury Chambers, 5th January, 1836.

GENTLEMEN,

I herewith transmit by Command of the Lords Commissioners of His Majesty's Treasury for your information a copy of a Letter from the Board of Trade, dated the 27th November 1835, respecting the admission of British Goods into the Mauritius from British Places in India, and I am to acquaint you that in concurrence with the recommendation of the Lords of the Committee of Privy Council for Trade, my Lords are pleased to desire that you will instruct your Officers at the Mauritius to continue to permit the Importation of British Manufactured Goods in the manner specified in the Letter addressed by the Chief Secretary of the Colonial Government to the Acting Collector of Customs, on the 11th March 1829, and to take any requisite steps for relieving Parties, who may have given Bonds for the amount of Foreign Duties upon such Goods in those cases where the Regulations referred to in that Letter have been complied with.

I have, &c.

(Signed) F. BARING.

FORT WILLIAM,
GENERAL DEPARTMENT, THE 26TH JUNE 1832.
ALL Public Officers of Government sending Advertisements to the *Calcutta Gazette* for publication, are hereby directed to make them as short as possible, and to specify always how many times the Advertisement shall be repeated.

FORT WILLIAM,
LEGISLATIVE DEPARTMENT,
THE 1ST AUGUST, 1836.

Resolution.—By Clause 3, Section 3, Regulation XI. 1822, of the Bengal Code, it is provided that Joint Estates shall not be liable to sale for arrears that may accrue during the progress of a Butwarra or Partition, until the expiration of the year within which the arrear may become due. It is further enacted, that in like manner Estates under Attachment, by order of the Courts of Justice, shall not be liable to sale in the middle of the year for arrears accruing during the period of such Attachment. This restriction in regard to the period of sale is properly imposed as respects Estates under Attachment, the management and the collection of the rents of such Estates being committed to the Officers of the Government, and it being just that a sufficient time should be allowed for the examination and adjustment of the accounts of those Officers, in concert with the Proprietors of the Estates. The Governor General in Council has therefore resolved to maintain the restriction for Estates so held under Attachment. There is, however, no valid reason for permitting the restriction to continue in force as respects Joint Estates under Partition, no interference being exercised by the Government in the management of Estates so circumstanced, and there being nothing in the process of Partition by which the punctual collection of the rents can be impeded.

The effect of the restriction has been, that Butwarra have often been fraudulently commenced by persons who had no intention of completing them, for the purpose of protecting the Estate from Sale.

To this evil the Board of Revenue has been in the habit of applying a remedy by quashing Butwarra, which were believed to be fraudulent. But doubts have arisen as to the legal-

ity of the power thus exercised by the Board; and it has become absolutely necessary for the Governor General in Council to take the subject into consideration.

His Lordship in Council has determined to legalize all the Acts done by the Board of Revenue and the Officers invested with the authority of that Board in the exercise of their assumed power. He has come to this determination from a conviction that these Acts whether strictly legal or not, were well intended, were generally salutary in their effect, and could not now be reversed without unsettling the titles by which a large number of Estates are held.

His Lordship in Council has determined to repeal the provision which has given occasion for this questionable exercise of power, and to settle the existing doubts by an enactment which will prevent any Butwarra from being hereafter quashed while any party to it is desirous that it should proceed. The following draft of a proposed Act is accordingly published for general information:

Act No. — of 1836.

I.—It is hereby enacted, that from the — day of — so much of Clause 3, Section 3, Regulation XI. of 1822, of the Bengal Code, as provides “that Joint Estates shall not be liable to sale for arrears that may accrue during the progress of a Butwarra or Partition until the expiration of the year within which the arrear may become due”—be repealed.

II.—And it is hereby enacted, that from the said — day of — no Butwarra while in progress shall be quashed by the Board of Revenue, or by any Officer invested with the powers of the said Board, except as hereinafter provided.

III.—And it is hereby enacted, that it shall be lawful for the said Board, or for any of the said Officers, to give six months notice in writing of an intention to quash any Butwarra; and such notice shall be affixed at the Office of the Collector of the District and Moonsiff of the jurisdiction within which the lands under partition, or part of those lands, may be situated; and if within six months after such notice, no party to the said Butwarra shall deliver to the said Collector a written declaration, that he the said party objects to the quashing of the said Butwarra, it shall be lawful for the said Board or the said Officer to quash the said Butwarra.

IV.—And it is hereby enacted that every Butwarra which before the said — day of — may have been quashed by the said Board or by any of the said Officers, shall be taken by all Courts to have been lawfully quashed.

Ordered, that the Draft now read, be published for general information.

Ordered, that the said Draft be re-considered at the first meeting of the Legislative Council of India, after the 13th day of September next.

FORT WILLIAM,
FINANCIAL DEPARTMENT,
THE 27TH JULY, 1836.

NOTICE.

The attention of the Right Hon'ble the Governor General of India in Council having been drawn to the lateness of the period at which the Accounts and the Periodical Estimates of the Receipts and Disbursements of the several Presidencies are completed, and His Lordship in Council having been led to enquire into the causes of the delay has been informed that the evil is mainly to be ascribed to the neglect of several of the Officers in charge of Treasuries of Receipt and Disbursement in the Interior to forward their Accounts in due time, but partly also to errors requiring correction in the Accounts rendered, and to other circumstances which protract or render difficult the adjustments necessary to complete the general review of the Finances of the year.

In so far as the delay referred to arises from accidental errors or difficulties of adjustment in operations so widely extended as those which constitute the Finance of India, His Lordship in Council will always be prepared to make liberal allowance to the Officers of the Department whose duty it is to combine and prepare the General Statements, but it is his fixed determination to visit with the severest penalties of his displeasure the neglect of any Officers in charge of Subordinate Treasuries, who may be reported to him as having failed to render their Accounts for any month within such reasonable period after its close as shall be fixed by the Boards or other Heads of the Departments concerned. In order that his determination in this respect may be generally known and as a warning to those who are habitually negligent of their duty in respect to the Public Accounts, His Lordship in Council directs this public notice to be given of his views and intentions on this subject, and desires that the Boards and other Superior Authorities will give their particular attention to the absolute necessity of requiring punctual accounts from the Officers under their authority, and that the Officers of Account likewise at the Presidency will consider it their duty to bring specifically to notice any delay

or neglect of the Officers of the Interior whose accounts fall under their supervision.

BANK OF BENGAL, APRIL 23, 1835.

NOTICE.

FORT WILLIAM,
FINANCIAL DEPARTMENT,
The 7th March, 1835.

Notice is hereby given, that His Excellency the Right Honorable the Governor General in Council has deemed it expedient to require that the Capital Stock of the Bank of Bengal shall be increased from Fifty Lakhs of Sicca Rupees to Seventy Lakhs, and His Lordship in Council has directed a subscription to be opened this day in the Office of the Accountant General in Calcutta for the further amount of Twenty Lakhs of Rupees to be added to the Capital Stock of the said Bank, having given notice of the said subscription and of the amount thereof to the Directors of the Bank for the purpose of being communicated to the Proprietors in the manner prescribed and provided in the Third Clause of the Charter of the said Bank of Bengal. In further pursuance of the provisions contained in the said Clause the term of Eighteen Months, that is, until the 10th day of September, 1836, is hereby limited and allowed, during which the existing Proprietors of Shares, or such persons as may be Proprietors at any time before the expiration of the said period, shall and may exclusively set down their names as Subscribers for the additional Capital, and if the whole amount of such increased Capital Stock shall not be subscribed for by the said Proprietors before the expiration of such limited time as aforesaid, that is, before the said 10th September, 1836, the subscription shall then become public as to such parts thereof as shall not have been filled up by the said Proprietors.

Published by Order of the Right Honorable the Governor General in Council,

(Signed) H. T. PRINSEP,

Secy. to Govt.

Published by Order of the Directors,
G. UDNY, Secretary to the Bank.

With reference to the Advertisement of the Government, published in the Official Gazette and copied in the Margin, the Proprietors of the Bank of Bengal are informed, that the Government will subscribe for no part of the proposed additional Capital Stock of 20 Lakhs of Rupees, but that such Stock will (subject to the Provisions of the Charter) be open to the subscription of the other Proprietors, that is, of the holders of the remaining Stock or 40 Lakhs of Rs.

Proprietors intending to subscribe for any part of the proposed new Stock, must give notice (specifying what portion of the new Stock they may wish to subscribe for) to the Secretary to the Bank, previous to the 9th day of September, 1836.

LIGHT AT FALSE POINT—BAY OF BENGAL. **NOTICE.**

REFERRING to the Notice published from this Office under date 21st January last, communicating the abandonment of the Light at Point Palmyras—Notice is now given, that on the 1st day of March 1837, a Light will be exhibited at False Point on a building to be there erected.

The Light House will stand in Latitude $20^{\circ} 19' 25''$ N., and Longitude $86^{\circ} 48' 8''$ E. During the S. W. Monsoon of the year 1837, the Light will be exhibited from an elevation of about 65 feet above high water mark, and be visible in clear weather at a distance of about 13 miles from an elevation of 15 feet above the surface of the sea.

The Light will be continued at this height until the end of November, after which it will be discontinued, in order to the removal of the Lantern to the top of the building. It will subsequently, viz. on and after the 1st March 1838 be again exhibited at an elevation of 120 feet above high water mark, and be then visible from 18 to 20 miles in clear weather from the height of 15 feet from the surface of the sea.

The Pilot's Station will be continued as heretofore off Point Palmyras during the S. W. Monsoon, that is, from the 15th of March to the 15th September, during which period the Pilot Vessels cruise during the day off the Point, anchoring during the night in a Line East and West in Latitude $20^{\circ} 42'$ to $20^{\circ} 48'$ N. with the Point bearing W. to W. by S., the Vessel, on board of which the next turn Pilot may be, will burn a Blue Light and fire a Maroon alternately every half hour, commencing with the former at eight o'clock and continuing till daylight.

Commanders on making the Light on False Point are recommended after bringing it to bear West in from 13 to 14 fathoms to steer to the N. E., keeping in from 13 to 18 fathoms as the wind may hang to the Westward or Eastward—on no account coming under the former depth. In this track the Blue Light and Maroon above-mentioned will be seen long before the Light on False Point is lost sight of. If, however, about the beginning of September the wind comes from the Eastward or the weather assumes a threatening appearance, the Pilot Vessels necessarily haul off to the Eastward and will then be found in a Line between Point Palmyras and the Floating Light at the entrance of the Eastern Channel. Vessels therefore about that period if the wind hangs to the Eastward or has a threatening appearance are recommended after leaving False Point on no account to approach Point Palmyras, but rather to endeavour to make for the Floating Light at the entrance of the Eastern Channel; and it is further notified that from the 15th September no Pilot Vessel will be found to the Westward of the Western Sea Reef.

From the 15th September to the 15th March, the Pilot Vessels cruise during the day between Saugor Sand and the Western Sea Reef, anchoring in the night East and West of each other in Latitude 21° to $21^{\circ} 10'$ North.

Vessels approaching either Station during the day are requested to make for that Vessel on board of which they will see a large Red Flag flying at the main whenever they can do so without great inconvenience or delay. In the night during the N. E. Monsoon, that is, from 15th September to 15th March at the Floating Light Station at the entrance of the Eastern Channel, the Vessel having the next turn Pilot on board will burn a Maroon every hour and in thick weather every half hour, and as before stated at the Point Palmyras Station during the S. W. Monsoon, or between 15th March and 15th September, such Vessel will alternately burn a Blue Light and Maroon every half hour. Commanders are in like manner requested during the night to seek their Pilot from such Vessel, it being however understood that any Pilot Vessel which may be first seen in bound immediately to use every exertion to put a Pilot on board night or day without reference to turn or rotation, and that this latter is only allowed when no delay is occasioned thereby.

NOTICE.—With reference to the Notification of the intended Establishment of a Light House at Pondichery by the French Government, dated the 10th March last, the following further Notice, in continuation thereof dated the 25th May last, is published for general information.

NOTICE.

The Public have been apprized by the printed Notice dated the 10th March, 1836, that the Light House of Pondichery would be lighted on the 1st July next.

In accordance with the arrangements of Article 1st of the Resolution passed in Council on the 25th November, 1835, this Notice is again given to the Commercial Community, who are informed that from the 1st July next a Light House Duty will be levied.

This fixed Duty will amount to Fifteen Cents. per Ton and is to be paid by all Vessels, three masted, Brigs, Schooners, from whatever place they may come, and of whatever origin they may be.

The Light House Duty will be settled and collected by the proper Authorities of the Port at the same time with that of the Anchorage.

No Vessel will be allowed to have Clearance until the Light House Duty has been paid.

The Dhonies are exempted from the Light House Duty.

FORT WILLIAM,
GENERAL DEPARTMENT, THE 26TH JUNE 1832.

ALL Public Officers of Government sending Advertisements to the *Calcutta Gazette* for publication, are hereby directed to make them as short as possible, and to specify always how many times the Advertisement shall be repeated.

By Order of the Hon'ble the Vice President in Council,

H. T. PRINSEP, Secy. to the Govt.

FORT WILLIAM,
FINANCIAL DEPARTMENT, THE 15TH JUNE, 1836.

NOTICE is hereby given, that under instructions just received from the Honorable Court of Directors, the following Terms and Conditions for making Advances upon the Goods and Merchandise of Individuals intended for Consignment to England re-payable to the Court of Directors of the East India Company, have been substituted for those contained in the Advertisement of this Department, dated the 27th October 1834.

1st.—The parties to whom Advances may be made shall agree that the respective Consignments be delivered into such Warehouses as the Court of Directors may approve: and that they be subject to the Control of the Court of Directors until the lien of the Company upon the Consignment shall have been satisfied.

2d.—Upon each Consignment, the value of which is to be ascertained by the Officers of the Indian Governments, or Authorized Agents of the East India Company, an Advance not exceeding two-thirds of such ascertained value will be made.

3d.—For re-payment of the Advance, Bills of Exchange to be drawn in triplicate, at six months sight, at the rate of—

Per Company's Rupee for Advances made at	Bengal.
Ditto	Ditto..... Madras.
Ditto	Ditto..... Bombay.
Per Spanish Dollar, Ditto.....	China.

4th.—The Parties will be required to place in the hands of the Board of Customs, Salt and Opium, Bills of Lading of the Consignment and Policies of Insurance effected thereon, both in triplicate. The Bills of Lading must be drawn deliverable to the East India Company, or endorsed to the order of the East India Company. The Policies of Insurance must be effected in the name and on behalf of the East India Company, as the Parties interested, or endorsed to their order: but persons desirous of effecting the necessary Insurance in this Country, and of depositing the Policies in the Company's Treasury, will be allowed to do so.

5th.—In case of default being made either in acceptance, or payment of the Bills, the Court of Directors to be authorized, in such manner and at such times as they may see fit, to sell the Goods, for the purpose of re-paying the Company the

amount of the Advances made thereon, including Freight and any other charges or expenses which the Company may have incurred on account of the Consignment, together with interest, should any have accrued; the Company, on the other hand, allowing discount, where any part of the proceeds shall be realized before the Bills fall due, and the settlement of either surplus or deficiency shall be made with the Consignor; and if in India or China by the Government or Agents from whom he received the Advance, at the rate of exchange at which the Company may at the time be drawing Bills upon such Government or Agents.

6th.—An Agent in England shall be appointed for each Consignment, to whom the Court of Directors shall be empowered to make over the Goods, subject to all the conditions agreed upon with the Company, on payment of the Bills; and with whom they shall be authorized to transact generally all business relating to such Goods. The Consignor shall be at liberty to make provision, in case of the Party upon whom the Bill is drawn, (being also the Agent) having failed to accept the Bill, for the substitution of another Agent.

7th.—After the arrival of the Goods in England, and when they shall have been placed in such deposit as may have been agreed upon, the Agent may be put into possession of them before the Bills become due, upon the amount of such Bills (less discount) being paid, together with the Freight and any other charges and expenses which the Company have paid or may be subject to on account of the Goods.

8th.—The rate of Discount to be allowed by the Company shall be the same as that charged by the Bank of England.

9th.—It is expected that Parties or their Agents will cause the Goods to be Insured from fire, such Insurance to take effect from the date of the termination of the Sea risk; as the East India Company will not undertake to effect any Insurance upon them.

10th.—Parties receiving Advances, to address in each instance a Letter in quadruplicate to the Court of Directors, according to a form which will be furnished by the Officers of Government (or authorized Agents of the East India Company), signifying their assent to all the foregoing conditions, but more particularly for the purpose of expressly authorizing the sale of the Goods by the Company (without either notice to or concurrence of any person whomsoever) at any period after default shall be made either in acceptance or payment of the Bills; also authorizing, in such cases, the re-paying to the Company the Advances made, either principal or interest, together with any other charges or expenses which the Company may have incurred in respect of the Goods, and appointing the Agent in England for each transaction.

**FORT WILLIAM,
LEGISLATIVE DEPARTMENT,
THE 1ST AUGUST, 1836.**

Resolution.—By Clause 3, Section 3, Regulation XI. 1822, of the Bengal Code, it is provided that Joint Estates shall not be liable to sale for arrears that may accrue during the progress of a Butwarra or Partition, until the expiration of the year within which the arrear may become due. It is further enacted, that in like manner Estates under Attachment, by order of the Courts of Justice, shall not be liable to sale in the middle of the year for arrears accruing during the period of such Attachment. This restriction in regard to the period of sale is properly imposed as respects Estates under Attachment, the management and the collection of the rents of such Estates being committed to the Officers of the Government, and it being just that a sufficient time should be allowed for the examination and adjustment of the accounts of those Officers, in concert with the Proprietors of the Estates. The Governor General in Council has therefore resolved to maintain the restriction for Estates so held under Attachment. There is, however, no valid reason for permitting the restriction to continue in force as respects Joint Estates under Partition, no interference being exercised by the Government in the management of Estates so circumstanced, and there being nothing in the process of Partition by which the punctual collection of the rents can be impeded.

The effect of the restriction has been, that Butwarra have often been fraudulently commenced by persons who had no intention of completing them, for the purpose of protecting the Estate from Sale.

To this evil the Board of Revenue has been in the habit of applying a remedy by quashing Butwarra, which were believed to be fraudulent. But doubts have arisen as to the legality of the power thus exercised by the Board; and it has become absolutely necessary for the Governor General in Council to take the subject into consideration.

His Lordship in Council has determined to legalize all the Acts done by the Board of Revenue and the Officers invested with the authority of that Board in the exercise of their assumed power. He has come to this determination from a conviction that these Acts whether strictly legal or not, were well intended, were generally salutary in their effect, and could not now be reversed without unsettling the titles by which a large number of Estates are held.

His Lordship in Council has determined to repeal the provision which has given occasion for this questionable exercise of power, and to settle the existing doubts by an enactment which will prevent any Butwarra from being hereafter quashed while any party to it is desirous that it should proceed. The following draft of a proposed Act is accordingly published for general information :

Act No. — of 1836.

I.—It is hereby enacted, that from the — day of — so much of Clause 3, Section 3, Regulation XI. of 1822, of the Bengal Code, as provides " that " Joint Estates shall not be liable to sale for arrears " that may accrue during the progress of a " Butwarra or Partition until the expiration of the " year within which the arrear may become due "— be repealed.

II.—And it is hereby enacted, that from the said — day of — no Butwarra while in progress shall be quashed by the Board of Revenue, or by any Officer invested with the powers of the said Board, except as hereinafter provided.

III.—And it is hereby enacted, that it shall be lawful for the said Board, or for any of the said Officers, to give six months notice in writing of an intention to quash any Butwarra; and such notice shall be affixed at the Offices of the Collector of the District and Moonsiff of the jurisdiction within which the lands under partition, or part of those lands, may be situated; and if within six months after such notice, no party to the said Butwarra shall deliver to the said Collector a written declaration, that he the said party objects to the quashing of the said Butwarra, it shall be lawful for the said Board or the said Officer to quash the said Butwarra.

IV.—And it is hereby enacted that every Butwarra which before the said — day of — may have been quashed by the said Board or by any of the said Officers, shall be taken by all Courts to have been lawfully quashed.

Ordered, that the Draft now read, be published for general information.

Ordered, that the said Draft be re-considered at the first meeting of the Legislative Council of India, after the 13th day of September next.

NOTICE.

The attention of the Right Hon'ble the Governor General of India in Council having been drawn to the lateness of the period at which the Accounts and the Periodical Estimates of the Receipts and Disbursements of the several Presidencies are completed, and His Lordship in Council having been led to enquire into the causes of the delay has been informed that the evil is mainly to be ascribed to the neglect of several of the Officers in charge of Treasuries of Receipt and Disbursement in the Interior to forward their Accounts in due time, but partly also to errors requiring correction in the Accounts rendered, and to other circumstances which protract or render difficult the adjustments necessary to complete the general review of the Finances of the year.

In so far as the delay referred to arises from accidental errors or difficulties of adjustment in operations so widely extended as those which constitute the Finance of India, His Lordship in Council will always be prepared to make liberal allowance to the Officers of the Department whose duty it is to combine and prepare the General Statements, but it is his fixed determination to visit with the severest penalties of his displeasure the neglect of any Officers in charge of Subordinate Treasuries, who may be reported to him as having failed to render their Accounts for any month within such reasonable period after its close as shall be fixed by the Boards or other Heads of the Departments concerned. In order that his determination in this respect may be generally known and as a warning to those who are habitually negligent of their duty in respect to the Public Accounts, His Lordship in Council directs this public notice to be given of his views and intentions on this subject, and desires that the Boards and other Superior Authorities will give their particular attention to the absolute necessity of requiring punctual accounts from the Officers under their authority, and that the Officers of Account likewise at the Presidency will consider it their duty to bring specifically to notice any delay or neglect of the Officers of the Interior whose accounts fall under their supervision.

N. B. Parties applying for the above Packages, will be pleased to send Invoices, or Bills, shewing contents and value, and to depute persons to be present at the opening of them at this Office. The Collector has nothing to do with the business of Landing Packages from Ships, nor with forwarding them to their owners, or their destination.

The fact of Articles being destined for PRIVATE USE, and not for Sale, does not exempt them from payment of Duty, if they be of a kind which is chargeable with Duty under the Regulations.

PUBLISHED FOR GENERAL INFORMATION.

Office of Committee of Privy Council for Trade,
Whitehall, 27th November, 1835.

SIR,

The Lords of the Committee of Privy Council for Trade have considered the Report of the Commissioners of Customs, transmitted in your Letter, of the 5th Instant, relative to the admission of British Goods as such into the Mauritius from British Places in India, and their Lordships have directed me to state to you their opinion, that altho' such Goods are importable into our West India Islands only from the United Kingdom or from some other British Possession in America; it does not seem that the Mauritius, which is in a different Hemisphere, should be confined to the same channels of supply. The Legislature in drawing this Regulation had the American Colonies only in its mind, and it did by a subsequent enactment declare, that the Regulations affecting those Colonies should also embrace the Mauritius so far as any such Regulations can or may be applied. To the application of this particular Regulation, there is a strong geographical impediment, and the spirit of the Regulation should seem to require, that the Mauritius should stand in the same relation towards our Eastern Possessions, as Jamaica stands in towards those in the West; that is to say, that British Manufactures should be received into the Mauritius from Calcutta upon the same terms as those upon which they are received into Jamaica from Halifax. The Governor of the Mauritius appears to have viewed this Regulation in this spirit, and in the exercise of his discretionary powers, he has for several years permitted the Importations in question to be made. The Lords of this Committee are therefore the less disposed to recommend the enforcement of the Law according to its express working, but consider that the reservation as to the applicability of Regulations may with propriety be made use of so far as to admit British Produce or Manufactures as such into the Mauritius from any of the British Possessions within the limits of the East India Company's Charter. I am accordingly to request that you will move the Lords Commissioners of His Majesty's Treasury to consider whether they will not be pleased to confirm the orders given by the Governor of the Mauritius, and to relieve the several Importers from the Bonds they have been required in the meanwhile to give.

I am, Sir,

&c. &c. &c.

FRANCIS T. BAKING, Esq. &c. &c. &c.

Treasury Chambers, 5th January, 1836.

GENTLEMEN,

I herewith transmit by Command of the Lords Commissioners of His Majesty's Treasury for your information a copy of a Letter from the Board of Trade, dated the 27th November 1835, respecting the admission of British Goods into the Mauritius from British Places in India, and I am to acquaint you that in concurrence with the recommendation of the Lords of the Committee of Privy Council for Trade, my Lords are pleased to desire that you will instruct your Officers at the Mauritius to continue to permit the Importation of British Manufactured Goods in the manner specified in the Letter addressed by the Chief Secretary of the Colonial Government to the Acting Collector of Customs, on the 11th March 1829, and to take any requisite steps for relieving Parties, who may have given Bonds for the amount of Foreign Duties upon such Goods in those cases where the Regulations referred to in that Letter have been complied with.

I have, &c.

SUPPLEMENT TO

The Calcutta Gazette.

Published by Authority.

WEDNESDAY, AUGUST 10, 1836.

FORT WILLIAM,

GENERAL DEPARTMENT, THE 26TH JUNE 1832.

ALL Public Officers of Government sending Advertisements to the *Calcutta Gazette* for publication, are hereby directed to make them as short as possible, and to specify always how many times the Advertisement shall be repeated.

By Order of the Hon'ble the Vice President in Council,

H. T. PRINSEP, *Secy. to the Govt.*

FORT WILLIAM,

FINANCIAL DEPARTMENT, THE 15TH JUNE, 1836.

NOTICE is hereby given, that under instructions just received from the Honorable Court of Directors, the following Terms and Conditions for making Advances upon the Goods and Merchandise of Individuals intended for Consignment to England re-payable to the Court of Directors of the East India Company, have been substituted for those contained in the Advertisement of this Department, dated the 27th October 1834.

1st.—The parties to whom Advances may be made shall agree that the respective Consignments be delivered into such Warehouses as the Court of Directors may approve: and that they be subject to the Control of the Court of Directors until the lien of the Company upon the Consignment shall have been satisfied.

2d.—Upon each Consignment, the value of which is to be ascertained by the Officers of the Indian Governments, or Authorized Agents of the East India Company, an Advance not exceeding two-thirds of such ascertained value will be made.

3d.—For re-payment of the Advance, Bills of Exchange to be drawn in triplicate, at six months sight, at the rate of—

s. d.	Per Company's Rupee for Advances made at	
		Bengal.
	Ditto	Madras.
	Ditto	Bombay.
	Per Spanish Dollar, Ditto.....	China.

4th.—The Parties will be required to place in the hands of the Board of Customs, Salt and Opium, Bills of Lading of the Consignment and Policies of Insurance effected thereon, both in triplicate. The Bills of Lading must be drawn deliverable to the East India Company, or endorsed to the order of the East India Company. The Policies of Insurance must be effected in the name and on behalf of the East India Company, as the Parties interested, or endorsed to their order; but persons desirous of effecting the necessary Insurance in this Country, and of depositing the Policies in the Company's Treasury, will be allowed to do so.

5th.—In case of default being made either in acceptance, or payment of the Bills, the Court of Directors to be authorized, in such manner and at such times as they may see fit, to sell the Goods, for the purpose of re-paying the Company the

amount of the Advances made thereon, including Freight and any other charges or expenses which the Company may have incurred on account of the Consignment, together with interest, should any have accrued; the Company, on the other hand, allowing discount, where any part of the proceeds shall be realized before the Bills fall due, and the settlement of either surplus or deficiency shall be made with the Consignor; and if in India or China by the Government or Agents from whom he received the Advance, at the rate of exchange at which the Company may at the time be drawing Bills upon such Government or Agents.

6th.—An Agent in England shall be appointed for each Consignment, to whom the Court of Directors shall be empowered to make over the Goods, subject to all the conditions agreed upon with the Company, on payment of the Bills; and with whom they shall be authorized to transact generally all business relating to such Goods. The Consignor shall be at liberty to make provision, in case of the Party upon whom the Bill is drawn, (being also the Agent) having failed to accept the Bill, for the substitution of another Agent.

7th.—After the arrival of the Goods in England, and when they shall have been placed in such deposit as may have been agreed upon, the Agent may be put into possession of them before the Bills become due, upon the amount of such Bills (less discount) being paid, together with the Freight and any other charges and expenses which the Company have paid or may be subject to on account of the Goods.

8th.—The rate of Discount to be allowed by the Company shall be the same as that charged by the Bank of England.

9th.—It is expected that Parties or their Agents will cause the Goods to be Insured from fire, such Insurance to take effect from the date of the termination of the Sea risk; as the East India Company will not undertake to effect any Insurance upon them.

10th.—Parties receiving Advances, to address in each instance a Letter in quadruplicate to the Court of Directors, according to a form which will be furnished by the Officers of Government (or authorized Agents of the East India Company), signifying their assent to all the foregoing conditions, but more particularly for the purpose of expressly authorizing the sale of the Goods by the Company (without either notice to or concurrence of any person whomsoever) at any period after default shall be made either in acceptance or payment of the Bills; also authorizing, in such cases, the re-paying to the Company the Advances made, either principal or interest, together with any other charges or expenses which the Company may have incurred in respect of the Goods, and appointing the Agent in England for each transaction.

FORT WILLIAM,

FINANCIAL DEPARTMENT, 13TH OF JULY, 1836.

Notice is hereby given, in modification of the Notice issued on the 15th of June last, that the Board of Customs, Salt and Opium at this Presidency will, after this date, accept Tenders for Advances under the conditions of the separate Notice published under Orders of the Right Hon'ble the Governor General of India in Council of the same date, at the rate of exchange of (2s. 1d.) two shillings and one penny for the Company's Rupee, and will give Orders for the amount to be advanced payable at the General Treasury twenty (20) days after sight.

Published by Order of the Right Honorable the Governor of Bengal,

H. T. PRINSEP, *Secy. to the Govt. of Bengal.*

FORT WILLIAM,

LEGISLATIVE DEPARTMENT,

THE 1ST AUGUST, 1836.

Resolution.—By Clause 3, Section 3, Regulation XI. 1822, of the Bengal Code, it is provided that Joint Estates shall not be liable to sale for arrears that may accrue during the progress of a Butwarra or Partition, until the expiration of the year within which the arrear may become due. It is further enacted, that in like manner Estates under Attachment, by order of the Courts of Justice, shall not be liable to sale in the middle of the year for arrears accruing during the period of such Attachment. This restriction in regard to the period of sale is properly imposed as respects Estates under Attachment, the management and the collection of the rents of such Estates being committed to the Officers of the Government, and it being just that a sufficient time should be allowed for the examination and adjustment of the accounts of those Officers, in concert with the Proprietors of the Estates. The Governor General in Council has therefore resolved to maintain the restriction for Estates so held under Attachment. There is, however, no valid reason for permitting the restriction to continue in force as respects Joint Estates under Partition, no interference being exercised by the Government in the management of Estates so circumstanced, and there being nothing in the process of Partition by which the punctual collection of the rents can be impeded.

The effect of the restriction has been, that Butwaras have often been fraudulently commenced by persons who had no intention of completing them, for the purpose of protecting the Estate from Sale.

To this evil the Board of Revenue has been in the habit of applying a remedy by quashing Butwaras, which were believed to be fraudulent. But doubts have arisen as to the legality of the power thus exercised by the Board; and it has become absolutely necessary for the Governor General in Council to take the subject into consideration.

His Lordship in Council has determined to legalize all the Acts done by the Board of Revenue and the Officers invested with the authority of that Board in the exercise of their assumed power. He has come to this determination from a conviction that these Acts whether strictly legal or not, were well intended, were generally salutary in their effect, and could not now be reversed without unsettling the titles by which a large number of Estates are held.

His Lordship in Council has determined to repeal the provision which has given occasion for this questionable exercise of power, and to settle the existing doubts by an enactment which will prevent any Butwarra from being hereafter quashed while any party to it is desirous that it should proceed. The following draft of a proposed Act is accordingly published for general information:

ACT No. — of 1836.

I.—It is hereby enacted, that from the — day of — so much of Clause 3, Section 3, Regulation XI. of 1822, of the Bengal Code, as provides "that Joint Estates shall not be liable to sale for arrears that may accrue during the progress of a Butwarra or Partition until the expiration of the year within which the arrear may become due"—be repealed.

II.—And it is hereby enacted, that from the said — day of — no Butwarra while in progress shall be quashed by the Board of Revenue, or by any Officer invested with the powers of the said Board, except as hereinafter provided.

III.—And it is hereby enacted, that it shall be lawful for the said Board, or for any of the said Officers, to give six months notice in writing of an intention to quash any Butwarra; and such notice shall be affixed at the Office of the Collector of the District and Moonsiff of the jurisdiction within which the lands under partition, or part of those lands, may be situated; and if within six months after such notice, no party to the said Butwarra shall deliver to the said Collector a written declaration, that he the said party objects to the quashing of the said Butwarra, it shall be lawful for the said Board or the said Officer to quash the said Butwarra.

IV.—And it is hereby enacted that every Butwarra which before the said — day of — may have been quashed by the said Board or by any of the said Officers, shall be taken by all Courts to have been lawfully quashed.

Ordered, that the Draft now read, be published for general information.

Ordered, that the said Draft be re-considered at the first meeting of the Legislative Council of India, after the 13th day of September next.

W. H. MACNAGHTEN,
Secy. to the Govt. of India.

FORT WILLIAM,

LEGISLATIVE DEPARTMENT,

THE 1ST AUGUST, 1836.

The following Draft of a proposed Act was read in Council for the first time on the 18th July 1836:

ACT No. — of 1836.

It is hereby enacted, that from the — day of — it shall be lawful for the Governor General in Council, by an order in Council, to create new Zillahs in any part of the Presidency of Fort William in Bengal, and to alter the limits of existing Zillahs.

Ordered, that the Draft now read be published for general information.

Ordered, that the said Draft be re-considered at the first Meeting of the Legislative Council of India, after the 16th day of September next.

FINANCIAL DEPARTMENT,

THE 27TH JULY, 1836.

NOTICE.

The attention of the Right Hon'ble the Governor General of India in Council having been drawn to the lateness of the period at which the Accounts and the Periodical Estimates of the Receipts and Disbursements of the several Presidencies are completed, and His Lordship in Council having been led to enquire into the causes of the delay has been informed that the evil is mainly to be ascribed to the neglect of several of the Officers in charge of Treasuries of Receipt and Disbursement in the Interior to forward their Accounts in due time, but partly also to errors requiring correction in the Accounts rendered, and to other circumstances which protract or render difficult the adjustments necessary to complete the general review of the Finances of the year.

In so far as the delay referred to arises from accidental errors or difficulties of adjustment in operations so widely extended as those which constitute the Finance of India, His Lordship in Council will always be prepared to make liberal allowance to the Officers of the Department whose duty it is to combine and prepare the General Statements, but it is his fixed determination to visit with the severest penalties of his displeasure the neglect of any Officers in charge of subordinate Treasuries, who may be reported to him as having failed to render their Accounts for any month within such

reasonable period after its close as shall be fixed by the Boards or other Heads of the Departments concerned. In order that his determination in this respect may be generally known and as a warning to those who are habitually negligent of their duty in respect to the Public Accounts, His Lordship in Council directs this public notice to be given of his views and intentions on this subject, and desires that the Boards and other Superior Authorities will give their particular attention to the absolute necessity of requiring punctual accounts from the Officers under their authority, and that the Officers of Account likewise at the Presidency will consider it their duty to bring specifically to notice any delay or neglect of the Officers of the Interior whose accounts fall under their supervision.

FORT WILLIAM,

GENERAL DEPARTMENT, THE 20TH JUNE 1832.

All Public Officers of Government sending Advertisements to the Calcutta Gazette for publication, are hereby directed to make them as short as possible, and to specify always how many times the Advertisement shall be repeated.

By Order of the Hon'ble the Vice President in Council,

H. T. PRINSEP, Secy. to the Govt.

FORT WILLIAM,

FINANCIAL DEPARTMENT, THE 15TH JUNE, 1836.

NOTICE is hereby given, that under instructions just received from the Honorable Court of Directors, the following Terms and Conditions for making Advances upon the Goods and Merchandise of Individuals intended for Consignment to England re-payable to the Court of Directors of the East India Company, have been substituted for those contained in the Advertisement of this Department, dated the 27th October 1834.

1st.—The parties to whom Advances may be made shall agree that the respective Consignments be delivered into such Warehouses as the Court of Directors may approve: and that they be subject to the Control of the Court of Directors until the lien of the Company upon the Consignment shall have been satisfied.

2d.—Upon each Consignment, the value of which is to be ascertained by the Officers of the Indian Governments, or Authorized Agents of the East India Company, an Advance not exceeding two-thirds of such ascertained value will be made.

3d.—For re-payment of the Advance, Bills of Exchange to be drawn in triplicate, at six months sight, at the rate of—

a. d.

Per Company's Rupee for Advances made at	Bengal.
Ditto	Ditto..... Madras.
Ditto	Ditto..... Bombay.
Per Spanish Dollar, Ditto.....	China.

4th.—The Parties will be required to place in the hands of the Board of Customs, Salt and Opium, Bills of Lading of the Consignment and Policies of Insurance effected thereon, both in triplicate. The Bills of Lading must be drawn deliverable to the East India Company, or endorsed to the order of the East India Company. The Policies of Insurance must be effected in the name and on behalf of the East India Company, as the Parties interested, or endorsed to their order; but persons desirous of effecting the necessary Insurance in this Country, and of depositing the Policies in the Company's Treasury, will be allowed to do so.

5th.—In case of default being made either in acceptance, or payment of the Bills, the Court of Directors to be authorized, in such manner and at such times as they may see fit, to sell the Goods, for the purpose of re-paying the Company the

amount of the Advances made thereon, including Freight and any other charges or expenses which the Company may have incurred on account of the Consignment, together with interest, should any have accrued; the Company, on the other hand, allowing discount, where any part of the proceeds shall be realized before the Bills fall due, and the settlement of either surplus or deficiency shall be made with the Consignor; and if in India or China by the Government or Agents from whom he received the Advance, at the rate of exchange at which the Company may at the time be drawing Bills upon such Government or Agents.

6th.—An Agent in England shall be appointed for each Consignment, to whom the Court of Directors shall be empowered to make over the Goods, subject to all the conditions agreed upon with the Company, on payment of the Bills; and with whom they shall be authorized to transact generally all business relating to such Goods. The Consignor shall be at liberty to make provision, in case of the Party upon whom the Bill is drawn, (being also the Agent) having failed to accept the Bill, for the substitution of another Agent.

7th.—After the arrival of the Goods in England, and when they shall have been placed in such deposit as may have been agreed upon, the Agent may be put into possession of them before the Bills become due, upon the amount of such Bills (less discount) being paid, together with the Freight and any other charges and expenses which the Company have paid or may be subject to on account of the Goods.

8th.—The rate of Discount to be allowed by the Company shall be the same as that charged by the Bank of England.

9th.—It is expected that Parties or their Agents will cause the Goods to be Insured from fire, such Insurance to take effect from the date of the termination of the Sea risk; as the East India Company will not undertake to effect any Insurance upon them.

10th.—Parties receiving Advances, to address in each instance a Letter in quadruplicate to the Court of Directors, according to a form which will be furnished by the Officers of Government (or authorized Agents of the East India Company), signifying their assent to all the foregoing conditions, but more particularly for the purpose of expressly authorizing the sale of the Goods by the Company (without either notice to or concurrence of any person whomsoever) at any period after default shall be made either in acceptance or payment of the Bills; also authorizing, in such cases, the re-paying to the Company the Advances made, either principal or interest, together with any other charges or expenses which the Company may have incurred in respect of the Goods, and appointing the Agent in England for each transaction.

Resolution.—By Clause 3, Section 3, Regulation XI. 1822, of the Bengal Code, it is provided that Joint Estates shall not be liable to sale for arrears that may accrue during the progress of a Butwarra or Partition, until the expiration of the year within which the arrear may become due. It is further enacted, that in like manner Estates under Attachment, by order of the Courts of Justice, shall not be liable to sale in the middle of the year for arrears accruing during the period of such Attachment. This restriction in regard to the period of sale is properly imposed as respects Estates under Attachment, the management and the collection of the rents of such Estates being committed to the Officers of the Government, and it being just that a sufficient time should be allowed for the examination and adjustment of the accounts of those Officers, in concert with the Proprietors of the Estates. The Governor General in Council has therefore resolved to maintain the restriction for Estates so held under Attachment. There is, however, no valid reason for permitting the restriction to continue in force as respects Joint Estates under Partition, no interference being exercised by the Government in the management of Estates so circumstanced, and there being nothing in the process of Partition by which the punctual collection of the rents can be impeded.

The effect of the restriction has been, that Butwarra have often been fraudulently commenced by persons who had no intention of completing them, for the purpose of protecting the Estate from Sale.

To this evil the Board of Revenue has been in the habit of applying a remedy by quashing Butwarra, which were believed to be fraudulent. But doubts have arisen as to the legality of the power thus exercised by the Board; and it has become absolutely necessary for the Governor General in Council to take the subject into consideration.

His Lordship in Council has determined to legalize all the Acts done by the Board of Revenue and the Officers invested with the authority of that Board in the exercise of their assumed power. He has come to this determination from a conviction that those Acts whether strictly legal or not, were well intended, were generally salutary in their effect, and could not now be reversed without unsettling the titles by which a large number of Estates are held.

His Lordship in Council has determined to repeal the provision which has given occasion for this questionable exercise of power, and to settle the existing doubts by an enactment which will prevent any Butwarra from being hereafter quashed while any party to it is desirous that it should proceed. The following draft of a proposed Act is accordingly published for general information :

ACT No. — of 1836.

I.—It is hereby enacted, that from the — day of — so much of Clause 3, Section 3, Regulation XI. of 1822, of the Bengal Code, as provides "that Joint Estates shall not be liable to sale for arrears that may accrue during the progress of a Butwarra or Partition until the expiration of the year within which the arrear may become due"—be repealed.

II.—And it is hereby enacted, that from the said — day of — no Butwarra while in progress shall be quashed by the Board of Revenue, or by any Officer invested with the powers of the said Board, except as hereinafter provided.

III.—And it is hereby enacted, that it shall be lawful for the said Board, or for any of the said Officers, to give six months notice in writing of an intention to quash any Butwarra; and such notice shall be affixed at the Offices of the Collector of the District and Moonsiff of the jurisdiction within which the lands under partition, or part of those lands, may be situated; and if within six months after such notice, no party to the said Butwarra shall deliver to the said Collector a written declaration, that he the said party objects to the quashing of the said Butwarra, it shall be lawful for the said Board or the said Officer to quash the said Butwarra.

IV.—And it is hereby enacted that every Butwarra which before the said — day of — may have been quashed by the said Board or by any of the said Officers, shall be taken by all Courts to have been lawfully quashed.

Ordered, that the Draft now read, be published for general information.

Ordered, that the said Draft be re-considered at the first meeting of the Legislative Council of India, after the 13th day of September next.

NOTICE.

The attention of the Right Hon'ble the Governor General of India in Council having been drawn to the lateness of the period at which the Accounts and the Periodical Estimates of the Receipts and Disbursements of the several Presidencies are completed, and His Lordship in Council having been led to enquire into the causes of the delay has been informed that the evil is mainly to be ascribed to the neglect of several of the Officers in charge of Treasuries of Receipt and Disbursement in the Interior to forward their Accounts in due time, but partly also to errors requiring correction in the Accounts rendered, and to other circumstances which protract or render difficult the adjustments necessary to complete the general review of the Finances of the year.

In so far as the delay referred to arises from accidental errors or difficulties of adjustment in operations so widely extended as those which constitute the Finance of India, His Lordship in Council will always be prepared to make liberal allowance to the Officers of the Department whose duty it is to combine and prepare the General Statements, but it is his fixed determination, to visit with the severest penalties of his displeasure the neglect of any Officers in charge of subordinate Treasuries, who may be reported to him as having failed to render their Accounts for any month within such

reasonable period after its close as shall be fixed by the Boards or other Heads of the Departments concerned. In order that his determination in this respect may be generally known and as a warning to those who are habitually negligent of their duty in respect to the Public Accounts, His Lordship in Council directs this public notice to be given of his views and intentions on this subject, and desires that the Boards and other Superior Authorities will give their particular attention to the absolute necessity of requiring punctual accounts from the Officers under their authority, and that the Officers of Account likewise at the Presidency will consider it their duty to bring specifically to notice any delay or neglect of the Officers of the Interior whose accounts fall under their supervision.

SUPPLEMENT TO

The Calcutta Gazette.

Published by Authority.

WEDNESDAY, AUGUST 17, 1836.

FORT WILLIAM,
GENERAL DEPARTMENT, THE 26TH JUNE 1832.

ALL Public Officers of Government sending Advertisements to the *Calcutta Gazette* for publication, are hereby directed to make them as short as possible, and to specify always how many times the Advertisement shall be repeated.

By Order of the Hon'ble the Vice President in Council,

H. T. PRINSEP, *Secy. to the Govt.*

FORT WILLIAM,
FINANCIAL DEPARTMENT, THE 15TH JUNE, 1836.

NOTICE is hereby given, that under instructions just received from the Honorable Court of Directors, the following Terms and Conditions for making Advances upon the Goods and Merchandise of Individuals intended for Consignment to England re-payable to the Court of Directors of the East India Company, have been substituted for those contained in the Advertisement of this Department, dated the 27th October 1834.

1st.—The parties to whom Advances may be made shall agree that the respective Consignments be delivered into such Warehouses as the Court of Directors may approve: and that they be subject to the Control of the Court of Directors until the lien of the Company upon the Consignment shall have been satisfied.

2d.—Upon each Consignment, the value of which is to be ascertained by the Officers of the Indian Governments, or Authorized Agents of the East India Company, an Advance not exceeding two-thirds of such ascertained value will be made.

3d.—For re-payment of the Advance, Bills of Exchange to be drawn in triplicate, at six months sight, at the rate of—

s. d.

Per Company's Rupee for Ad-

vances made at Bengal.

Ditto Madras.

Ditto Bombay.

Per Spanish Dollar, Ditto..... China.

4th.—The Parties will be required to place in the hands of the Board of Customs, Salt and Opium, Bills of Lading of the Consignment and Policies of Insurance effected thereon, both in triplicate. The Bills of Lading must be drawn deliverable to the East India Company, or endorsed to the order of the East India Company. The Policies of Insurance must be effected in the name and on behalf of the East India Company, as the Parties interested, or endorsed to their order; but persons desirous of effecting the necessary Insurance in this Country, and of depositing the Policies in the Company's Treasury, will be allowed to do so.

5th.—In case of default being made either in acceptance, or payment of the Bills, the Court of Directors to be authorized, in such manner and at such times as they may see fit, to sell the Goods, for the purpose of re-paying the Company the

amount of the Advances made thereon, including Freight and any other charges or expenses which the Company may have incurred on account of the Consignment, together with interest, should any have accrued; the Company, on the other hand, allowing discount, where any part of the proceeds shall be realized before the Bills fall due, and the settlement of either surplus or deficiency shall be made with the Consignor; and if in India or China by the Government or Agents from whom he received the Advance, at the rate of exchange at which the Company may at the time be drawing Bills upon such Government or Agents.

6th.—An Agent in England shall be appointed for each Consignment, to whom the Court of Directors shall be empowered to make over the Goods, subject to all the conditions agreed upon with the Company, on payment of the Bills; and with whom they shall be authorized to transact generally all business relating to such Goods. The Consignor shall be at liberty to make provision, in case of the Party upon whom the Bill is drawn, (being also the Agent) having failed to accept the Bill, for the substitution of another Agent.

7th.—After the arrival of the Goods in England, and when they shall have been placed in such deposit as may have been agreed upon, the Agent may be put into possession of them before the Bills become due; upon the amount of such Bills (less discount) being paid, together with the Freight and any other charges and expenses which the Company have paid or may be subject to on account of the Goods.

8th.—The rate of Discount to be allowed by the Company shall be the same as that charged by the Bank of England.

9th.—It is expected that Parties or their Agents will cause the Goods to be Insured from fire, such Insurance to take effect from the date of the termination of the Sea risk; as the East India Company will not undertake to effect any Insurance upon them.

10th.—Parties receiving Advances, to address in each instance a Letter in quadruplicate to the Court of Directors, according to a form which will be furnished by the Officers of Government (or authorized Agents of the East India Company), signifying their assent to all the foregoing conditions, but more particularly for the purpose of expressly authorizing the sale of the Goods by the Company (without either notice to or concurrence of any person whomsoever) at any period after default shall be made either in acceptance or payment of the Bills; also authorizing, in such cases, the re-paying to the Company the Advances made, either principal or interest, together with any other charges or expenses which the Company may have incurred in respect of the Goods, and appointing the Agent in England for each transaction.

	Per Spanish Dollar, Ditto	China.

4th.—The Parties will be required to place in the hands of the Board of Customs, Salt and Opium, Bills of Lading of the Consignment and Policies of Insurance effected thereon, both in triplicate. The Bills of Lading must be drawn deliverable to the East India Company, or endorsed to the order of the East India Company. The Policies of Insurance must be effected in the name and on behalf of the East India Company, as the Parties interested, or endorsed to their order; but persons desirous of effecting the necessary Insurance in this Country, and of depositing the Policies in the Company's Treasury, will be allowed to do so.

5th.—In case of default being made either in acceptance, or payment of the Bills, the Court of Directors to be authorized, in such manner and at such times as they may see fit, to sell the Goods, for the purpose of re-paying the Company the

amount of the Advances made thereon, including Freight and any other charges or expenses which the Company may have incurred on account of the Consignment, together with interest, should any have accrued; the Company, on the other hand, allowing discount, where any part of the proceeds shall be realized before the Bills fall due, and the settlement of either surplus or deficiency shall be made with the Consignor; and if in India or China by the Government or Agents from whom he received the Advance, at the rate of exchange at which the Company may at the time be drawing Bills upon such Government or Agents.

6th.—An Agent in England shall be appointed for each Consignment, to whom the Court of Directors shall be empowered to make over the Goods, subject to all the conditions agreed upon with the Company, on payment of the Bills; and with whom they shall be authorized to transact generally all business relating to such Goods. The Consignor shall be at liberty to make provision, in case of the Party upon whom the Bill is drawn, (being also the Agent) having failed to accept the Bill, for the substitution of another Agent.

7th.—After the arrival of the Goods in England, and when they shall have been placed in such deposit as may have been agreed upon, the Agent may be put into possession of them before the Bills become due, upon the amount of such Bills (less discount) being paid, together with the Freight and any other charges and expenses which the Company have paid or may be subject to on account of the Goods.

8th.—The rate of Discount to be allowed by the Company shall be the same as that charged by the Bank of England.

9th.—It is expected that Parties or their Agents will cause the Goods to be Insured from fire, such Insurance to take effect from the date of the termination of the Sea risk; as the East India Company will not undertake to effect any Insurance upon them.

10th.—Parties receiving Advances, to address in each instance a Letter in quadruplicate to the Court of Directors, according to a form which will be furnished by the Officers of Government (or authorized Agents of the East India Company), signifying their assent to all the foregoing conditions, but more particularly for the purpose of expressly authorizing the sale of the Goods by the Company (without either notice to or concurrence of any person whomsoever) at any period after default shall be made either in acceptance or payment of the Bills; also authorizing, in such cases, the re-paying to the Company the Advances made, either principal or interest, together with any other charges or expenses which the Company may have incurred in respect of the Goods, and appointing the Agent in England for each transaction.

NOTICE.—The following Directions are published by Order of the Right Hon'ble the Governor of Bengal, for general information:

DIRECTIONS FOR SHIPS PASSING THROUGH THE STRAITS OF MADURA TO SOERABAYA by CAPTAIN A. FRASER.

The *Lady Hayes* found twelve and thirteen fathoms through, inside Kutampang, during the night, in which situation she found herself unexpectedly, after bringing Passurwang to bear S. by W. about eight miles distance, not intending to take a Pilot, steer N. $\frac{1}{2}$ W. by compass, being careful not to go to the Westward of this course, to avoid the dangers on the Java shore; or, perhaps as well steer North, keeping in twelve or thirteen fathoms, you will observe a remarkably smooth conical peak to the Westward of you; with that bearing W. by S. you should be in twelve fathoms; W. S. W. in seven fathoms and a half. As the water begins to shoal, then alter course to N. E. by N. and run two miles; if you should shoal under six fathoms and a half, keep her N. N. E. you will by this time have the peak S. W. and less water, perhaps quarter less six, at about eight miles from the Straits. Now steer North, and in a distance of three miles you will shoal to a half three, soft bottom, if in the channel; if hard, rather, too near the Java shore, but, as from hence you can see the beacon that marks the edge of the shoal water on the Madura side, it being of timber, with a bamboo topmast, and bearing about N. N. W. five miles distance from you, steer direct for it, till within one and a half or two miles of it. Edge away about N. W., according to tide, you will or ought to come within half a mile of it; then bring her up gradually to W. by N. keeping close round the fishing-stakes, (Madura side,) where the water deepens to seven fathoms, soft bottom, keep rather to the Northward, for by hauling in too soon for the Shipping, you may get on a hard bank to the S. E. of the river's mouth.

It may be well to observe here, that the island off Tamba river, in Horsburgh's Charts, does not exist; but there is a rock or reef, dry at low-water, close to the Java shore. The rock or shoal in same Chart bearing N. N. E. of Passurwang is not known to the Pilots, but the courses given will lead clear of its site, and also the dangers off Bandigan; which island by following the above directions, you will not see; it should be carefully avoided, unless going between it and Madura, where I understand there is a good and safe channel. The Madura side of this gulf is best during the south-east monsoon, the winds being far more regular, off Belega there is a bank, but there is plenty room to avoid it, as it does not extend far off.

Having brought up in Soerabaya roads, you will do well to await the visit, if you do not wish to incur port charges, when you will ascertain the port regulations. There is a vigilant eye upon strangers from the Guard-ship; therefore, if not allowed, do not let your boat be seen in communication with any other vessel. The port charges for anchorage, per last of about two register tons, is one guilder or rupee; pilotage seven rupees per foot each way, one-third copper and two-thirds silver, the latter about one-eighth sterling each. If bound to

the eastward from hence, you may easily apply these directions vice versa, observing, as it will be hardly possible to cross the flats in one tide, you will have to lie a tide in the mud.

The country surrounding, for some extent, appears alluvial, and is perhaps not equalled or surpassed in the world for fertility; its productions are amazing, and yet capable of great augmentation under a more liberal Government, consisting of rice, sugar, arrack, turmeric, sapan wood, rattans, cow-hides, and buffalo. These constitute the principal articles of export, the sugar being only bottoms, the superior white clayed sugar being a Government monopoly, as well as the coffee entirely. These two latter articles are sold at Government sales at Batavia, at indefinite periods, that depending mostly upon the state of their coffers.

The Mants Chapye seem to enjoy very peculiar privileges, to the exclusion of the British merchants, whom it would seem the Dutch are anxious to weed out from amongst them. I do not think it in very strict observance of the treaty between the two countries. Having spoken of the two principal articles of their growth as monopolies, it must be understood that they are taken possession of immediately from the grower, scarcely allowing him sufficient for his own consumption, and sold just at what period best answers the views of the Government. The coffee grower has but little left him after the Government exactions of somewhere about three-fourths of the total value. With sugar, as the production of it is in its infancy there, greater privileges are given to the cultivator. I believe pecuniary assistance, or lands, is given, to enable him to meet the great expense of steam machinery. But when at maturity, the sugar planter must expect no better usage than the coffee grower. The natives, it is needless to say, under such oppressive taxes, make out a miserable subsistence. The different degrees of respect paid to Englishmen and the Hollander, throughout Java, are very striking. Of rice, the average export of this district is about 12,000 to 16,000 tons; coffee produced about 7,000 or 8,000 tons; sugar, in this and the eastern districts, for the season of 1833, was expected to be about 14,000 tons—a considerable increase will take place in its production. The port of Soerabaya is doubtless the best in Java; smooth water at all seasons, a tide about nine feet, excellent holding-ground, not so pestilent as Batavia, a convenient river, a delightful country around, pleasant mansions and hospitable people: indeed there seems, if possible, more good fellowship amongst the residents themselves, viz., those belonging to the two flags, than is to be met with in Batavia. But it is with much delight that I can bear witness to the uncommon hospitality, and high integrity of the British merchants in Java; like those in China, their word is their bond; even with every Chinese trader, the word of an English merchant will pass current for thousands—well and nobly do they uphold their character.

Direction from Soerabaya to the Westward.

For four miles you cannot go wrong, for fishing-stakes in either side. If not high-water, you will then perceive abreast of you, to the Eastward, the Baffles, two islets or rocks, the outer one rarely covered; there are fishing-stakes outside of them, on the western side, in the light between the town of Grisse and Soerabaya are the Pysangs, an extensive shoal; it is out of the way of running ships, and there is an abundance of room for plying outside of it; but if borrowing this way, you will deepen from seven in the fair way to ten fathoms upon the very edge; you must lack immediately, or you will be on them. After passing Grisse, keep rather towards the stakes on Madura side, to avoid the Banka tree, which commences immediately from Grisse, and occupies the whole of this western light. Towards the shoal the bottom is foul, and unfit for anchorage. By keeping over on the Madura side, and steering from stakes to stakes, in plenty room, with seven fathoms, clear of all danger, with a favourable wind and tide, you will soon see Fort Ludowick on the outermost island from the western side, and Bankalan pier on the eastern. N. by E. is your course, keeping still towards the Madura stakes. The spit of soft mud from Fort Ludowick has a beacon on it, in a quarter less three fathoms: here the channel begins to narrow, and the set of tides is various and strong. With the flagstaff and Point Panka north-west, come no nearer to the Fort, or you will be on the spit; the beacon bears about N. N. W. of Point Panka. Both banks are steep to the channel, a bare three-quarters of a mile wide; towards the spit, if drawing in with the tide, you will have twelve, five, and three, rapidly, and aground as quick. From the beacon, the flagstaff bears S. W. and the Regent's White Wall Zidayo, N. W. by $\frac{1}{2}$ W. In passing the beacon, it is usual to anchor a boat N. by W. of it, in about three fathoms. There is sufficient tide to back and fill through. On the first of the tide the water is very turbid, but after a little it subsides, and you can see the shoal water on either side, during the easterly monsoon; in the westerly or rainy monsoon it is not so, you will then experience a tide of five knots here.

After being passed this danger, the fishing stakes will lead you up to the first beacon on the starboard or Madura side. The channel is nearly N. W. and S. E. both sides beacons; on the Panka side, until you have passed the first two beacons, it is rocky bad ground; do not borrow on this side. The first beacon on the sea bank is in two fathoms and a half, hard ground; after that soft mud; borrow more towards it. In coming from northward and westward, you will observe three remarkable flat hummocks, called the Coffins of Dood Kists; when you shut the two in behind the north-east, astern of the largest, you will be able to see the first beacon on Madura flat. The above direction may be then easily applied in the opposite way, if bound to Soerabaya.

Philippine Islands.—Rock in the Track to Manila— Ship struck.

We are indebted to a correspondent for the Leith Commercial List, containing the following account of a dangerous rock lying immediately in the track of ships running for Manila from the eastward.

The following communication is from Mr. John H. Robertson, commander of the barque *Mincera*, of Alton:—“When bound from Sydney to Manila, on the 10th of September, 1831, at 2 A. M. the vessel struck on a sunk coral rock, (not laid down in any of our English Charts,) bearing from Point St. Iago, Island of Luconia, one of the Philippine Islands, E. S. E. $\frac{1}{2}$ E. four or five miles distant. Within half a mile of the rock there are seventeen fathoms. Point St. Iago lies in about $13^{\circ} 41'$ N. Latitude, $120^{\circ} 38'$ E. Long.” Some years ago an American ship was lost upon the same rock.

On referring to the Chart, we find the tracks of the Spanish vessels *Desubierta* and *Aterida*, within a very short distance of this danger, and we would remind navigators, that, as the Spanish Survey was by no means a minute one, there may be many other dangers yet unknown in the channels between these islands. By keeping mid-channel, and not shoaling to the northward until Point St. Iago bears east, this rock would be avoided.

New Shoals in the Eastern Seas:—Ships struck.

The following accounts of two dangerous shoals in the China and Java Seas have been presented to us by that enlightened Hydrographer Captain Horsburgh.

Omega Shoal, although not far distant from Batavia, had escaped the notice of Navigators, until discovered by Captain Russell, of the American Ship *Omega*, according to the following account which he has transmitted.

The Ship *Omega*, under my command, in March, 1835, struck on a coral shoal, and remained on it 25 hours, beat off her rudder, and received some damage in her bottom; she was got off by throwing cargo overboard to the value of about 15,000 dollars; and she was obliged to be hove down at Onruth, near Batavia, for repairs.

This shoal is steep to, extends N. N. E. and S. S. W. 150 to 200 yards, and about 70 in breadth; with from 10 to 13 feet water, and bears about E. by S. from the South end of the North Watcher, distant one mile and a quarter. There is a channel between the island and the shoal, with 12 fathoms water.

Owen Shoal, in Lat. $8^{\circ} 8'$ N. Long. 112° E. by two chronometers agreeing, in a run of ten days from Macao, has been discovered in May, 1835, by Captain Owen of the Ship *David Scott*, on her passage from Canton to England. She struck on it at noon, steering S. S. E. having had soundings at 6 to 4 $\frac{1}{2}$, and once 2 $\frac{3}{4}$ fathoms, and at 1 P. M. she cleared the shoal, having then no bottom. This shoal appeared to be about two miles in extent, composed of black and white speckled coral, and seemed to be in a state of rapid accretion, from the vitality and energy of the madrepores in the recent formations of large pieces of coral brought up by the lead. While crossing the shoal, the patches of variegated coral were bright and alarming, but no breakers were perceived, as the sea was then very smooth. In stormy weather, however, when the sea runs high, they probably break, and a large ship would be liable to strike.

SUPPLEMENT TO
The Calcutta Gazette.

Published by Authority.

WEDNESDAY, AUGUST 24, 1836.

FORT WILLIAM,
 GENERAL DEPARTMENT, THE 26TH JUNE 1832.

ALL Public Officers of Government sending Advertisements to the *Calcutta Gazette* for publication, are hereby directed to make them as short as possible, and to specify always how many times the Advertisement shall be repeated.

By Order of the Hon'ble the Vice President in Council,

H. T. PRINSEP, *Secy. to the Govt.*

FORT WILLIAM,
 FINANCIAL DEPARTMENT, THE 15TH JUNE, 1836.

NOTICE is hereby given, that under instructions just received from the Honorable Court of Directors, the following Terms and Conditions for making Advances upon the Goods and Merchandise of Individuals intended for Consignment to England re-payable to the Court of Directors of the East India Company, have been substituted for those contained in the Advertisement of this Department, dated the 27th October 1834.

1st.—The parties to whom Advances may be made shall agree that the respective Consignments be delivered into such Warehouses as the Court of Directors may approve: and that they be subject to the Control of the Court of Directors until the lien of the Company upon the Consignment shall have been satisfied.

2d.—Upon each Consignment, the value of which is to be ascertained by the Officers of the Indian Governments, or Authorized Agents of the East India Company, an Advance not exceeding two-thirds of such ascertained value will be made.

3d.—For re-payment of the Advance, Bills of Exchange to be drawn in triplicate, at six months sight, at the rate of—

s. d.

Per Company's Rupee for Advances made at	Bengal.
Ditto	Ditto..... Madras.
Ditto	Ditto..... Bombay.
Per Spanish Dollar, Ditto.....	China.

4th.—The Parties will be required to place in the hands of the Board of Customs, Salt and Opium, Bills of Lading of the Consignment and Policies of Insurance effected thereon, both in triplicate. The Bills of Lading must be drawn deliverable to the East India Company, or endorsed to the order of the East India Company. The Policies of Insurance must be effected in the name and on behalf of the East India Company, as the Parties interested, or endorsed to their order; but persons desirous of effecting the necessary Insurance in this Country, and of depositing the Policies in the Company's Treasury, will be allowed to do so.

5th.—In case of default being made either in acceptance, or payment of the Bills, the Court of Directors to be authorized, in such manner and at such times as they may see fit, to sell the Goods, for the purpose of re-paying the Company the

amount of the Advances made thereon, including Freight and any other charges or expenses which the Company may have incurred on account of the Consignment, together with interest, should any have accrued; the Company, on the other hand, allowing discount, where any part of the proceeds shall be realized before the Bills fall due, and the settlement of either surplus or deficiency shall be made with the Consignor; and if in India or China by the Government or Agents from whom he received the Advance, at the rate of exchange at which the Company may at the time be drawing Bills upon such Government or Agents.

6th.—An Agent in England shall be appointed for each Consignment, to whom the Court of Directors shall be empowered to make over the Goods, subject to all the conditions agreed upon with the Company, on payment of the Bills; and with whom they shall be authorized to transact generally all business relating to such Goods. The Consignor shall be at liberty to make provision, in case of the Party upon whom the Bill is drawn, (being also the Agent) having failed to accept the Bill, for the substitution of another Agent.

7th.—After the arrival of the Goods in England, and when they shall have been placed in such deposit as may have been agreed upon, the Agent may be put into possession of them before the Bills become due, upon the amount of such Bills (less discount) being paid, together with the Freight and any other charges and expenses which the Company have paid or may be subject to on account of the Goods.

8th.—The rate of Discount to be allowed by the Company shall be the same as that charged by the Bank of England.

9th.—It is expected that Parties or their Agents will cause the Goods to be Insured from fire, such Insurance to take effect from the date of the termination of the Sea risk; as the East India Company will not undertake to effect any Insurance upon them.

10th.—Parties receiving Advances, to address in each instance a Letter in quadruplicate to the Court of Directors, according to a form which will be furnished by the Officers of Government (or authorized Agents of the East India Company), signifying their assent to all the foregoing conditions, but more particularly for the purpose of expressly authorizing the sale of the Goods by the Company (without either notice to or concurrence of any person whomsoever) at any period after default shall be made either in acceptance or payment of the Bills; also authorizing, in such cases, the re-paying to the Company the Advances made, either principal or interest, together with any other charges or expenses which the Company may have incurred in respect of the Goods, and appointing the Agent in England for each transaction.

NOTICE.—The following Directions are published by Order of the Right Hon'ble the Governor of Bengal, for general information:

DIRECTIONS for SHIPS passing through the STRAITS of MADURA to SOERABAYA by CAPTAIN A. FRASER.

The *Lady Hayes* found twelve and thirteen fathoms through, inside Kutampang, during the night, in which situation she found herself unexpectedly, after bringing Passurwang to bear S. by W. about eight miles distance, not intending to take a Pilot, steer N. $\frac{1}{2}$ W. by compass, being careful not to go to the Westward of this course, to avoid the dangers on the Java shore; or, perhaps as well steer North, keeping in twelve or thirteen fathoms, you will observe a remarkably smooth conical peak to the Westward of you; with that bearing W. by S. you should be in twelve fathoms; W. S. W. in seven fathoms and a half. As the water begins to shoal, then alter course to N. E. by N. and run two miles; if you should shoal under six fathoms and a half, keep her N. N. E. you will by this time have the peak S. W. and less water, perhaps quarter less six, at about eight miles from the Straits. Now steer North, and in a distance of three miles you will shoal to a half three, soft bottom, if in the channel; if hard, rather, too near the Java shore, but, as from hence you can see the beacon that marks the edge of the shoal water on the Madura side, it being of timber, with a bamboo topmast, and bearing about N. N. W. five miles distance from you, steer direct for it, till within one and a half or two miles of it. Edge away about N. W., according to tide, you will or ought to come within half a mile of it; then bring her up gradually to W. by N. keeping close round the fishing-stakes, (Madura side,) where the water deepens to seven fathoms, soft bottom, keep rather to the Northward, for by hauling in too soon for the Shipping, you may get on a hard bank to the S. E. of the river's mouth.

It may be well to observe here, that the island off Tamba river, in Horsburgh's Charts, does not exist; but there is a rock or reef, dry at low-water, close to the Java shore. The rock or shoal in same Chart bearing N. N. E. of Passurwang is not known to the Pilots, but the courses given will lead clear of its site, and also the dangers off Bandigan; which island by following the above directions, you will not see; it should be carefully avoided, unless going between it and Madura, where I understand there is a good and safe channel. The Madura side of this gulf is best during the south-east monsoon, the winds being far more regular, off Belega there is a bank, but there is plenty room to avoid it, as it does not extend far off.

Having brought up in Soerabaya roads, you will do well to await the visit, if you do not wish to incur port charges, when you will ascertain the port regulations. There is a vigilant eye upon strangers from the Guardship; therefore, if not allowed, do not let your boat be seen in communication with any other vessel. The port charges for anchorage, per last of about two register tons, is one guilder or rupee; pilotage seven rupees per foot each way, one-third copper and two-thirds silver, the latter about one-eighth sterling each. If bound to the eastward from hence, you may easily apply these directions vice versa, observing, as it will be hardly possible to cross the flats in one tide, you will have to lie a tide in the mud.

The country surrounding, for some extent, appears alluvial, and is perhaps not equalled or surpassed in the world for fertility; its productions are amazing, and yet capable of great augmentation under a more liberal Government, consisting of rice, sugar, arrack, turmeric, sapan wood, rattans, cow-hides, and buffalo. These constitute the principal articles of export, the sugar being only bottoms, the superior white clayed sugar being a Government monopoly, as well as the coffee entirely. These two latter articles are sold at Government sales at Batavia, at indefinite periods, that depending mostly upon the state of their coffers.

The Maats Chapye seem to enjoy very peculiar privileges, to the exclusion of the British merchants, whom it would seem the Dutch are anxious to weed out from amongst them. I do not think it in very strict observance of the treaty between the two countries. Having spoken of the two principal articles of their growth as monopolies, it must be understood that they are taken possession of immediately from the grower, scarcely allowing him sufficient for his own consumption, and sold just at what period best answers the views of the Government. The coffee grower has but little left him after the Government exac-

tions of somewhere about three-fourths of the total value. With sugar, as the production of it is in its infancy there, greater privileges are given to the cultivator. I believe pecuniary assistance, or lands, is given, to enable him to meet the great expense of steam machinery. But when at maturity, the sugar planter must expect no better usage than the coffee grower. The natives, it is needless to say, under such oppressive taxes, make out a miserable subsistence. The different degrees of respect paid to Englishmen and the Hollander, throughout Java, are very striking. Of rice, the average export of this district is about 12,000 to 16,000 tons; coffee produced about 7,000 or 8,000 tons; sugar, in this and the eastern districts, for the season of 1833, was expected to be about 14,000 tons—a considerable increase will take place in its production. The port of Soerabaya is doubtless the best in Java; smooth water at all seasons, a tide about nine feet, excellent holding-ground, not so pestilent as Batavia, a convenient river, a delightful country around, pleasant mansions and hospitable people: indeed there seems, if possible, more good fellowship amongst the residents themselves, viz., those belonging to the two flags, than is to be met with in Batavia. But it is with much delight that I can bear witness to the uncommon hospitality, and high integrity of the British merchants in Java; like those in China, their word is their bond; even with every Chinese trader, the word of an English merchant will pass current for thousands—well and nobly do they uphold their character.

Direction from Soerabaya to the Westward.

For four miles you cannot go wrong, for fishing-stakes in either side. If not high-water, you will then perceive abreast of you, to the Eastward, the Buffles, two islets or rocks, the outer one rarely covered; there are fishing-stakes outside of them, on the western side, in the bight between the town of Grisse and Soerabaya are the Pysangs, an extensive shoal; it is out of the way of running ships, and there is an abundance of room for plying outside of it; but if borrowing this way, you will deepen from seven in the fair way to ten fathoms upon the very edge; you must tack immediately, or you will be on them. After passing Grisse, keep rather towards the stakes on Madura side, to avoid the Banka tree, which commences immediately from Grisse, and occupies the whole of this western bight. Towards the shoal the bottom is foul, and unfit for anchorage. By keeping over on the Madura side, and steering from stakes to stakes, in plenty room, with seven fathoms, clear of all danger, with a favourable wind and tide, you will soon see Fort Ludowick on the outermost island from the western side, and Bankalan pier on the eastern. N. by E. is your course, keeping still towards the Madura stakes. The spit of soft mud from Fort Ludowick has a beacon on it, in a quarter less three fathoms: here the channel begins to narrow, and the set of tides is various and strong. With the flagstaff west, and Point Panka north-west, come no nearer to the Fort, or you will be on the spit; the beacon bears about N. N. W. of Point Panka. Both banks are steep to the channel, a bare three-quarters of a mile wide; towards the spit, if drawing in with the tide, you will have twelve, five, and three, rapidly, and aground as quick. From the beacon, the flagstaff bears S. W. and the Regent's White Wall Zidayo, N. W. by $\frac{1}{2}$ W. In passing the beacon, it is usual to anchor a boat N. by W. of it, in about three fathoms. There is sufficient tide to back and fill through. On the first of the tide the water is very turbid, but after a little it subsides, and you can see the shoal water on either side, during the easterly monsoon; in the westerly or rainy monsoon it is not so, you will then experience a tide of five knots here.

After being passed this danger, the fishing stakes will lead you up to the first beacon on the starboard or eastern side. The channel is nearly N. W. and S. E. both sides beacons; on the Panka side, until you have passed the first two beacons, it is rocky bad ground; do not borrow on this side. The first beacon on the sea bank is in two fathoms and a half, hard ground; after that soft mud; borrow more towards it. In coming from northward and westward, you will observe three remarkable flat hummocks, called the Coffins of Dood Kists; when you shut the two in behind the north-east, astern of the largest, you will be able to see the first beacon on Madura flat. The above direction may be then easily applied in the opposite way, if bound to Soerabaya.

Philippine Islands.—Rock in the Track to Manila—Ship struck.

We are indebted to a correspondent for the Leith Commercial List, containing the following account of a dangerous rock lying immediately in the track of ships running for Manila from the eastward.

The following communication is from Mr. John H. Robertson, commander of the barque *Minerva*, of Altea:—"When bound from Sydney to Manila, on the 10th of September, 1834, at 2 A. M. the vessel struck on a sunk coral rock, (not laid down in any of our English Charts,) bearing from Point St. Iago, Island of Luconia, one of the Philippine Islands, E. S. E. $\frac{1}{2}$ E. four or five miles

distant. Within half a mile of the rock there are seventeen fathoms. Point St. Iago lies in about $13^{\circ} 41'$ N. Latitude, $120^{\circ} 38'$ E. Long." Some years ago an American ship was lost upon the same rock.

On referring to the Chart, we find the tracks of the Spanish vessels *Descubierta* and *Atrevida*, within a very short distance of this danger, and we would remind navigators, that, as the Spanish Survey was by no means a minute one, there may be many other dangers yet unknown in the channels between these islands. By keeping mid-channel, and not hauling to the northward until Point St. Iago bears east, this rock would be avoided.

New Shoals in the Eastern Seas:—Ships struck.

The following accounts of two dangerous shoals in the China and Java Seas have been presented to us by that enlightened Hydrographer Captain Horsburgh.

Omega Shoal, although not far distant from Batavia, had escaped the notice of Navigators, until discovered by Captain Russell, of the American Ship *Omega*, according to the following account which he has transmitted.

The Ship *Omega*, under my command, in March, 1835, struck on a coral shoal, and remained on it 25 hours, beat off her rudder, and received some damage in her bottom; she was got off by throwing cargo overboard to the value of about 15,000 dollars; and she was obliged to be hove down at Onruth, near Batavia, for repairs.

This shoal is steep to, extends N. N. E. and S. S. W. 150 to 200 yards, and about 70 in breadth; with from 10 to 13 feet water, and bears about E. by S. from the South end of the North Watcher, distant one mile and a quarter. There is a channel between the island and the shoal, with 12 fathoms water.

Owen Shoal, in Lat. $8^{\circ} 8'$ N. Long. 112° E. by two chronometers agreeing, in a run of ten days from Macao, has been discovered in May, 1835, by Captain Owen of the Ship *David Scott*, on her passage from Canton to England. She struck on it at noon, steering S. S. E. having had soundings at 6 to $4\frac{1}{2}$, and once $3\frac{1}{2}$ fathoms, and at 1 P. M. she cleared the shoal, having then no bottom. This shoal appeared to be about two miles in extent, composed of black and white speckled coral, and seemed to be in a state of rapid accretion, from the vitality and energy of the madrepores in the recent formations of large pieces of coral brought up by the lead. While crossing the shoal, the patches of variegated coral were bright and alarming, but no breakers were perceived, as the sea was then very smooth. In stormy weather, however, when the sea runs high, they probably break, and a large ship would be liable to strike.

By Order of the Marine Board,

C. R. GREENLAW, Secretary.

Fort William, Marine Board Office, }
The 15th August, 1836. }

REVISED RULES FOR THE TOLLS ON THE "OLOOBARIA" AND "BAUGNAUN" CANAL.

Sanctioned by Government on the 2d of August 1836, and to take effect from 1st of September, 1836.

I.—All persons, Europeans or Natives, are required to pay the amount of Toll demanded according to the following authorized Rules and Rates.

II.—Application for redress of unnecessary delays at the Tolls, extortion or any other grievance, are to be made to the Executive Officer, Mr. W. F. Pennington, at Midnapore.

III.—Toll Chokies are to be stationed at "Oloobaria" on the Hooghly, and at "Noufulla" on the Roopnarain Rivers, at each of which *Half Toll* will be collected, as Boats may pass through.

IV.—Boats refusing to pay Toll will be detained or refused admittance, and if necessary, application will be made to the Police authority for assistance, should any violence be used or forcible attempts made to evade paying Toll; the Collecting Officers will take care to secure evidence to support their conduct, and they will at the same time be careful that no unnecessary delays take place, and that neither by their own conduct or that of their subordinates, cause of offence be given in any respect, as it will, on proof, be met with severe punishment.

V.—All Boats entering either Division of the Canal from the Damoodur River shall be subject to Toll even though they may not pass the Chokies.

VI.—Boats entering are not allowed to remain stationary within the Canal Chokies more than one tide. All Boats of whatever description staying a longer time, will be subject to payment of Toll for every additional tide they shall so remain.

VII.—These Rules and Rates are to be written in English and Bengally, posted and exhibited on a board at the Toll Chokies, and a copy in same manner is to be deposited at the Police or Ghaut Chokies for general information.

Rates of Half Toll to be levied on Boats entering or passing through the Oolocharia Canal, at each Choky.
Co.'s Rs. As. P.

1st.—All Boats of Burthen, per 100 maunds burthen.	The Tolls to be levied according to the burthen, at Two annas per 100 maunds.
2d.—All Pinnaces or Bugerows, ditto.	
3d.—All Bealeahs, ditto.	
4th.—All Panneways, ditto.	
5th.—Floats of Bamboos, per 100 Bamboos,	
6th.—Rafts of Timber, per Timber,	
7th.—Loads of Hay or Straw, each load, ..	

(Signed) Wm. BELL, Supt. Pub. Works, P. Ck.

NOTE.—It is intended that the above Canals shall be annually shut up about the month of December, to clear out the deposit from the tides.

FORT WILLIAM,

GENERAL DEPARTMENT, THE 26TH JUNE 1832.

ALL Public Officers of Government sending Advertisements to the *Calcutta Gazette* for publication, are hereby directed to make them as short as possible, and to specify always how many times the Advertisement shall be repeated.

By Order of the Hon'ble the Vice President in Council,

H. T. PRINSEP, *Secy. to the Govt.*

FORT WILLIAM,

FINANCIAL DEPARTMENT, THE 15TH JUNE, 1836.

NOTICE is hereby given, that under instructions just received from the Honorable Court of Directors, the following Terms and Conditions for making Advances upon the Goods and Merchandise of Individuals intended for Consignment to England re-payable to the Court of Directors of the East India Company, have been substituted for those contained in the Advertisement of this Department, dated the 27th October 1834.

1st.—The parties to whom Advances may be made shall agree that the respective Consignments be delivered into such Warehouses as the Court of Directors may approve: and that they be subject to the Control of the Court of Directors until the lien of the Company upon the Consignment shall have been satisfied.

2d.—Upon each Consignment, the value of which is to be ascertained by the Officers of the Indian Governments, or Authorized Agents of the East India Company, an Advance not exceeding two-thirds of such ascertained value will be made.

3d.—For re-payment of the Advance, Bills of Exchange to be drawn in triplicate, at six months sight, at the rate of—

s. d.

Per Company's Rupee for Advances made at	Bengal.
Ditto	Ditto..... Madras.
Ditto	Ditto..... Bombay.
Per Spanish Dollar, Ditto.....	China.

4th.—The Parties will be required to place in the hands of the Board of Customs, Salt and Opium, Bills of Lading of the Consignment and Policies of Insurance effected thereon, both in triplicate. The Bills of Lading must be drawn deliverable to the East India Company, or endorsed to the order of the East India Company. — The Policies of Insurance must be effected in the name and on behalf of the East India Company, as the Parties interested, or endorsed to their order; but persons desirous of effecting the necessary Insurance in this Country, and of depositing the Policies in the Company's Treasury, will be allowed to do so.

5th.—In case of default being made either in acceptance, or payment of the Bills, the Court of Directors to be authorized, in such manner and at such times as they may see fit, to sell the Goods, for the purpose of re-paying the Company the

amount of the Advances made thereon, including Freight and any other charges or expenses which the Company may have incurred on account of the Consignment, together with interest, should any have accrued; the Company, on the other hand, allowing discount, where any part of the proceeds shall be realized before the Bills fall due, and the settlement of either surplus or deficiency shall be made with the Consignor; and if in India or China by the Government or Agents from whom he received the Advance, at the rate of exchange at which the Company may at the time be drawing Bills upon such Government or Agents.

6th.—An Agent in England shall be appointed for each Consignment, to whom the Court of Directors shall be empowered to make over the Goods, subject to all the conditions agreed upon with the Company, on payment of the Bills; and with whom they shall be authorized to transact generally all business relating to such Goods. The Consignor shall be at liberty to make provision, in case of the Party upon whom the Bill is drawn, (being also the Agent) having failed to accept the Bill, for the substitution of another Agent.

7th.—After the arrival of the Goods in England and when they shall have been placed in such deposit as may have been agreed upon, the Agent may be put into possession of them before the Bills become due, upon the amount of such Bills (less discount) being paid, together with the Freight and any other charges and expenses which the Company have paid or may be subject to on account of the Goods.

8th.—The rate of Discount to be allowed by the Company shall be the same as that charged by the Bank of England.

9th.—It is expected that Parties or their Agents will cause the Goods to be insured from fire, such Insurance to take effect from the date of the termination of the Sea risk; as the East India Company will not undertake to effect any Insurance upon them.

10th.—Parties receiving Advances, to address in each instance a Letter in quadruplicate to the Court of Directors, according to a form which will be furnished by the Officers of Government (or authorized Agents of the East India Company), signifying their assent to all the foregoing conditions, but more particularly for the purpose of expressly authorizing the sale of the Goods by the Company (without either notice to or concurrence of any person whomsoever) at any period after default shall be made either in acceptance or payment of the Bills; also authorizing, in such cases, the re-paying to the Company the Advances made, either principal or interest, together with any other charges or expenses which the Company may have incurred in respect of the Goods, and appointing the Agent in England for each transaction.

NOTICE.—The following Directions are published by Order of the Right Hon'ble the Governor of Bengal, for general information :

DIRECTIONS for SHIPS passing through the STRAITS of MADURA to SOERABAYA by CAPTAIN A. FRASER.

The *Lady Hayes* found twelve and thirteen fathoms through, inside Katampang, during the night, in which situation she found herself unexpectedly, after bringing Passurwang to bear S. by W. about eight miles distance, not intending to take a Pilot, steer N. $\frac{1}{2}$ W. by compass, being careful not to go to the Westward of this course, to avoid the dangers on the Java shore; or, perhaps as well steer North, keeping in twelve or thirteen fathoms, you will observe a remarkably smooth conical peak to the Westward of you; with that bearing W. by S. you should be in twelve fathoms; W. S. W. in seven fathoms and a half. As the water begins to shoal, then alter course to N. E. by N. and run two miles; if you should shoal under six fathoms and a half, keep her N. N. E. you will by this time have the peak S. W. and less water, perhaps quarter less six, at about eight miles from the Straits. Now steer North, and in a distance of three miles you will shoal to a half three, soft bottom, if in the channel; if hard, rather, too near the Java shore, but, as from hence you can see the beacon that marks the edge of the shoal water on the Madura side, it being of timber, with a bamboo topmast, and bearing about N. N. W. five miles distance from you, steer direct for it, till within one and a half or two miles of it. Edge away about N. W., according to tide, you will or ought to come within half a mile of it; then bring her up gradually to W. by N. keeping close round the fishing-stakes, (Madura side,) where the water deepens to seven fathoms, soft bottom, keep rather to the Northward, for by hauling in too soon for the Shipping, you may get on a hard bank to the S. E. of the river's mouth.

It may be well to observe here, that the island off Tamba river, in Horsburgh's Charts, does not exist; but there is a rock or reef, dry at low-water, close to the Java shore. The rock or shoal in same Chart bearing N. N. E. of Passurwang is not known to the Pilots, but the courses given will lead clear of its site, and also the dangers off Baudigau; which island by following the above directions, you will not see; it should be carefully avoided, unless going between it and Madura, where I understand there is a good and safe channel. The Madura side of this gulf is best during the south-east monsoon, the winds being far more regular, off Belega there is a bank, but there is plenty room to avoid it, as it does not extend far off.

Having brought up in Soerabaya roads, you will do well to await the visit, if you do not wish to incur port charges, when you will ascertain the port regulations. There is a vigilant eye upon strangers from the Guardship; therefore, if not allowed, do not let your boat be seen in communication with any other vessel. The port charges for anchorage, per last of about two register tons, is one guilder or rupee; pilotage seven rupees per foot each way, one-third copper and two-thirds silver, the latter about one-eighth sterling each. If bound to the eastward from hence, you may easily apply these directions vice versa, observing, as it will be hardly possible to cross the flats in one tide, you will have to lie a tide in the mud.

The country surrounding, for some extent, appears alluvial, and is perhaps not equalled or surpassed in the world for fertility; its productions are amazing, and yet capable of great augmentation under a more liberal Government, consisting of rice, sugar, arrack, turmeric, sapan wood, rattans, cow-hides, and buffalo. These constitute the principal articles of export, the sugar being only bottoms, the superior white clayed sugar being a Government monopoly, as well as the coffee entirely. These two latter articles are sold at Government sales at Batavia, at indefinite periods, that depending mostly upon the state of their coffers.

The Maats Chapye seem to enjoy very peculiar privileges, to the exclusion of the British merchants, whom it would seem the Dutch are anxious to weed out from amongst them. I do not think it in very strict observance of the treaty between the two countries. Having spoken of the two principal articles of their growth as monopolies, it must be understood that they are taken possession of immediately from the grower, scarcely allowing him sufficient for his own consumption, and sold just at what period best answers the views of the Government. The coffee grower has but little left him after the Government exactions of somewhere about three-fourths of the total value. With sugar, as the production of it is in its infancy there, greater privileges are given to the cultivator. I believe pecuniary assistance, or lands, is given, to enable him to meet the great expense of steam machinery. But when at maturity, the sugar planter must expect no better usage than the coffee grower. The natives, it is needless to say, under such oppressive taxes, make out a miserable subsistence. The different degrees of respect paid to Englishmen and the Hollander, throughout Java, are very

striking. Of rice, the average export of this district is about 12,000 to 16,000 tons; coffee produced about 7,000 or 8,000 tons; sugar, in this and the eastern districts, for the season of 1833, was expected to be about 14,000 tons—a considerable increase will take place in its production. The port of Soerabaya is doubtless the best in Java; smooth water at all seasons, a tide about nine feet, excellent holding-ground, not so pestilent as Batavia, a convenient river, a delightful country around, pleasant mansions and hospitable people: indeed there seems, if possible, more good fellowship amongst the residents themselves, viz., those belonging to the two flags, than is to be met with in Batavia. But it is with much delight that I can bear witness to the uncommon hospitality, and high integrity of the British merchants in Java; like those in China, their word is their bond; even with every Chinese trader, the word of an English merchant will pass current for thousands—well and nobly do they uphold their character.

Direction from Soerabaya to the Westward.

For four miles you cannot go wrong, for fishing-stakes in either side. If not high-water, you will then perceive abreast of you, to the Eastward, the Buffles, two islets or rocks, the outer one rarely covered; there are fishing-stakes outside of them, on the western side, in the bight between the town of Grisse and Soerabaya are the Pysangs, an extensive shoal; it is out of the way of running ships, and there is an abundance of room for plying outside of it; but if borrowing this way, you will deepen from seven in the fair way to ten fathoms upon the very edge; you must tack immediately, or you will be on them. After passing Grisse, keep rather towards the stakes on Madura side, to avoid the Banka tree, which commences immediately from Grisse, and occupies the whole of this western bight. Towards the shoal the bottom is foul, and unfit for anchorage. By keeping over on the Madura side, and steering from stakes to stakes, in plenty room, with seven fathoms, clear of all danger, with a favourable wind and tide, you will soon see Fort Ludowick on the outermost island from the western side, and Bankalan pier on the eastern. N. by E. is your course, keeping still towards the Madura stakes. The spit of soft mud from Fort Ludowick has a beacon on it, in a quarter less three fathoms: here the channel begins to narrow, and the set of tides is various and strong. With the flagstaff west, and Point Panka north-west, come no nearer to the Fort, or you will be on the spit; the beacon bears about N. N. W. of Point Panka. Both banks are steep to the channel, a bare three-quarters of a mile wide; towards the spit, if drawing in with the tide, you will have twelve, five, and three, rapidly, and aground as quick. From the beacon, the flagstaff bears S. W. and the Regent's White Wall Zidayo, N. W. by $\frac{1}{2}$ W. In passing the beacon, it is usual to anchor a boat N. by W. of it, in about three fathoms. There is sufficient tide to back and fill through. On the first of the tide the water is very turbid, but after a little it subsides, and you can see the shoal water on either side, during the easterly monsoon; in the westerly or rainy monsoon it is not so, you will then experience a tide of five knots here.

After being passed this danger, the fishing stakes will lead you up to the first beacon on the starboard or eastern side. The channel is nearly N. W. and S. E. both sides beacons; on the Panka side, until you have passed the first two beacons, it is rocky bad ground; do not borrow on this side. The first beacon on the sea bank is in two fathoms and a half, hard ground; after that soft mud; borrow more towards it. In coming from northward and westward, you will observe three remarkable flat hummocks, called the Coffins of Dood Kists; when you shut the two in behind the north-east, eastern of the largest, you will be able to see the first beacon on Madura flat. The above direction may be then easily applied in the opposite way, if bound to Soerabaya.

Philippine Islands.—Rock in the Track to Manila—

Ship struck.

We are indebted to a correspondent for the Leith Commercial List, containing the following account of a dangerous rock lying immediately in the track of ships running for Manila from the eastward.

The following communication is from Mr. John H. Robertson, commander of the barque *Mixerva*, of Alcoa:—"When bound from Sydney to Manila, on the 10th of September, 1834, at 2 A. M. the vessel struck on a sunk coral rock, (not laid down in any of our English Charts,) bearing from Point St. Iago, Island of Luconia, one of the Philippine Islands, E. S. E. $\frac{1}{2}$ E. four or five miles distant. Within half a mile of the rock there are seventeen fathoms. Point St. Iago lies in about 13° 41' N. Latitude, 120° 35' E. Long." Some years ago an American ship was lost upon the same rock.

On referring to the Chart, we find the tracks of the Spanish vessels *Desembierta* and *Atrevida*, within a very short distance of this danger, and we would remind navigators, that, as the Spanish Survey was by no means a minute one, there may be many other dangers yet

unknown in the channels between these islands. By keeping mid-channel, and not hauling to the northward until Point St. Lago bears east, this rock would be avoided.

New Shoals in the Eastern Seas :—Ships struck.

The following accounts of two dangerous shoals in the China and Java Seas have been presented to us by that enlightened Hydrographer Captain Horsburgh.

Omega Shoal, although not far distant from Batavia, had escaped the notice of Navigators, until discovered by Captain Russell, of the American Ship *Omega*, according to the following account which he has transmitted.

The Ship *Omega*, under my command, in March, 1835, struck on a coral shoal, and remained on it 25 hours, beat off her rudder, and received some damage in her bottom; she was got off by throwing cargo overboard to the value of about 15,000 dollars; and she was obliged to be hove down at Onruth, near Batavia, for repairs.

This shoal is steep to, extends N. N. E. and S. S. W. 150 to 200 yards, and about 70 in breadth; with from 10 to 13 feet water, and bears about E. by S. from the South end of the North Watcher, distant one mile and a quarter. There is a channel between the island and the shoal, with 12 fathoms water.

Owen Shoal, in Lat. 8° 8' N. Long. 112° E. by two chronometers agreeing, in a run of ten days from Macao, has been discovered in May, 1835, by Captain Owen of the Ship *David Scott*, on her passage from Canton to England. She struck on it at noon, steering S. S. E. having had soundings at 6 to 4½, and once 3½ fathoms, and at 1 P. M. she cleared the shoal, having then no bottom. This shoal appeared to be about two miles in extent, composed of black and white speckled coral, and seemed to be in a state of rapid accretion, from the vitality and energy of the madrepores in the recent formations of large pieces of coral brought up by the lead. While crossing the shoal, the patches of variegated coral were bright and alarming, but no breakers were perceived, as the sea was then very smooth. In stormy weather, however, when the sea runs high, they probably break, and a large ship would be liable to strike.

REVISED RULES FOR THE TOLLS ON THE "OOLOOBARIA" AND "BAUGNAUN" CANAL. Sanctioned by Government on the 2d of August 1836, and to take effect from 1st of September, 1836.

I.—All persons, Europeans or Natives, are required to pay the amount of Toll demanded according to the following authorized Rules and Rates.

II.—Application for redress of unnecessary delays at the Tolls, extortion or any other grievance, are to be made to the Executive Officer, Mr. W. F. Pennington, at Midnapore.

III.—Toll Chokies are to be stationed at "Ooloobaria" on the Hooghly, and at "Nonfulla" on the Roopnarain Rivers, at each of which Half Toll will be collected, as Boats may pass through.

IV.—Boats refusing to pay Toll will be detained or refused admittance, and if necessary, application will be made to the Police authority for assistance, should any violence be used or forcible attempts made to evade paying Toll; the Collecting Officers will take care to secure evidence to support their conduct, and they will at the same time be careful that no unnecessary delays take place, and that neither by their own conduct or that of their subordinates, cause of offence be given in any respect, as it will, on proof, be met with severe punishment.

V.—All Boats entering either Division of the Canal from the Damoodur River shall be subject to Toll even though they may not pass the Chokies.

VI.—Boats entering are not allowed to remain stationary within the Canal Chokies more than one tide. All Boats of whatever description staying a longer time, will be subject to payment of Toll for every additional tide they shall so remain.

VII.—These Rules and Rates are to be written in English and Bengally, posted and exhibited on a board at the Toll Chokies, and a copy in same manner is to be deposited at the Police or Ghaut Chokies for general information.

Rates of Half Toll to be levied on Boats entering or passing through the Ooloobaria Canal, at each Choky.

FORT WILLIAM.

GENERAL DEPARTMENT, THE 26TH JUNE 1832.

ALL Public Officers of Government sending Advertisements to the *Calcutta Gazette* for publication, are hereby directed to make them as short as possible, and to specify always how many times the Advertisement shall be repeated.

By Order of the Hon'ble the Vice President in Council.

H. T. PRINSEP, Secy. to the Govt.

FORT WILLIAM.

FINANCIAL DEPARTMENT, THE 15TH JUNE, 1836.

NOTICE is hereby given, that under instructions just received from the Honorable Court of Directors, the following Terms and Conditions for making Advances upon the Goods and Merchandise of Individuals intended for Consignment to England re-payable to the Court of Directors of the East India Company, have been substituted for those contained in the Advertisement of this Department, dated the 27th October 1834.

1st.—The parties to whom Advances may be made shall agree that the respective Consignments be delivered into such Warehouses as the Court of Directors may approve: and that they be subject to the Control of the Court of Directors until the lien of the Company upon the Consignment shall have been satisfied.

2d.—Upon each Consignment, the value of which is to be ascertained by the Officers of the Indian Governments, or Authorized Agents of the East India Company, an Advance not exceeding two-thirds of such ascertained value will be made.

3d.—For re-payment of the Advance, Bills of Exchange to be drawn in triplicate, at six months sight, at the rate of—

s. d.

Per Company's Rupee for Ad-

vances made at Bengal.

Ditto **Ditto**..... **Madras.**

Ditto **Ditto**..... **Bombay**
Per Spanish Dollar, Ditto..... **China**.

4th.—The Parties will be required to place in the hands of the Board of Customs, Salt and Opium, Bills of Lading of the Consignment and Policies of Insurance effected thereon, both in triplicate. The Bills of Lading must be drawn deliverable to the East India Company, or endorsed to the order of the East India Company. The Policies of Insurance must be effected in the name and on behalf of the East India Company, as the Parties interested, or endorsed to their order; but persons desirous of effecting the necessary Insurance in this Country, and of depositing the Policies in the Company's Treasury, will be allowed to do so.

5th.—In case of default being made either in acceptance, or payment of the Bills, the Court of Directors to be authorized, in such manner and at such times as they may see fit, to sell the Goods, for the purpose of re-paying the Company the

amount of the Advances made thereon, including Freight and any other charges or expenses which the Company may have incurred on account of the Consignment, together with interest, should any have accrued; the Company, on the other hand, allowing discount, where any part of the proceeds shall be realized before the Bills fall due, and the settlement of either surplus or deficiency shall be made with the Consignor; and if in India or China by the Government or Agents from whom he received the Advance, at the rate of exchange at which the Company may at the time be drawing Bills upon such Government or Agents.

6th.—An Agent in England shall be appointed for each Consignment, to whom the Court of Directors shall be empowered to make over the Goods, subject to all the conditions agreed upon with the Company, on payment of the Bills; and with whom they shall be authorized to transact generally all business relating to such Goods. The Consignor shall be at liberty to make provision, in case of the Party upon whom the Bill is drawn; (being also the Agent) having failed to accept the Bill, for the substitution of another Agent.

7th.—After the arrival of the Goods in England and when they shall have been placed in such deposit as may have been agreed upon, the Agent may be put into possession of them before the Bills become due, upon the amount of such Bills (less discount) being paid, together with the Freight and any other charges and expenses which the Company have paid or may be subject to on account of the Goods.

8th.—The rate of Discount to be allowed by the Company shall be the same as that charged by the Bank of England.

9th.—It is expected that Parties or their Agents will cause the Goods to be Insured from fire, such Insurance to take effect from the date of the termination of the Sea risk; as the East India Company will not undertake to effect any Insurance upon them.

10th.—Parties receiving Advances, to address in each instance a Letter in quadruplicate to the Court of Directors, according to a form which will be furnished by the Officers of Government (or authorized Agents of the East India Company), signifying their assent to all the foregoing conditions, but more particularly for the purpose of expressly authorizing the sale of the Goods by the Company (without either notice to or concurrence of any person whomsoever) at any period after default shall be made either in acceptance or payment of the Bills; also authorizing, in such cases, the re-paying to the Company the Advances made, either principal or interest, together with any other charges or expenses which the Company may have incurred in respect of the Goods, and appointing the Agent in England for each transaction.

NOTICE.—The following Directions are published by Order of the Right Hon'ble the Governor of Bengal, for general information:

DIRECTIONS for SHIPS passing through the STRAITS of MADURA to SOERABAYA by CAPTAIN A. FRASER.

The *Lady Hayes* found twelve and thirteen fathoms through, inside Katampang, during the night, in which situation she found herself unexpectedly, after bringing Passurwang to bear S. by W. about eight miles distance, not intending to take a Pilot, steer N. $\frac{1}{2}$ W. by compass, being careful not to go to the Westward of this course, to avoid the dangers on the Java shore; or, perhaps as well steer North, keeping in twelve or thirteen fathoms, you will observe a remarkably smooth conical peak to the Westward of you; with that bearing W. by S. you should be in twelve fathoms; W. S. W. in seven fathoms and a half. As the water begins to shoal, then alter course to N. E. by N. and run two miles; if you should shoal under six fathoms and a half, keep her N. N. E. you will by this time have the peak S. W. and less water, perhaps quarter less six, at about eight miles from the Straits. Now steer North, and in a distance of three miles you will shoal to a half three, soft bottom, if in the channel; if hard, rather, too near the Java shore, but, as from hence you can see the beacon that marks the edge of the shoal water on the Madura side, it being of timber, with a bamboo topmast, and bearing about N. N. W. five miles distance from you, steer direct for it, till within one and a half or two miles of it. Edge away about N. W., according to tide, you will or ought to come within half a mile of it; then bring her up gradually to W. by N. keeping close round the fishing-stakes, (Madura side,) where the water deepens to seven fathoms, soft bottom, keep rather to the Northward, for by hauling in too soon for the Shipping, you may get on a hard bank to the S. E. of the river's mouth.

It may be well to observe here, that the island off Tamba river, in Horsburgh's Charts, does not exist; but there is a rock or reef, dry at low-water, close to the Java shore. The rock or shoal in same Chart bearing N. N. E. of Passurwang is not known to the Pilots, but the courses given will lead clear of its site, and also the dangers off Bandigan; which island by following the above directions, you will not see; it should be carefully avoided, unless going between it and Madura, where I understand there is a good and safe channel. The Madura side of this gulf is best during the south-east monsoon, the winds being far more regular, off Belega there is a bank, but there is plenty room to avoid it, as it does not extend far off.

Having brought up in Soerabaya roads, you will do well to await the visit, if you do not wish to incur port charges, when you will ascertain the port regulations. There is a vigilant eye upon strangers from the Guardship; therefore, if not allowed, do not let your boat be seen in communication with any other vessel. The port charges for anchorage, per last of about two register tons, is one guilder or rupee; pilotage seven rupees per foot each way, one-third copper and two-thirds silver, the latter about one-eighth sterling each. If bound to the eastward from hence, you may easily apply these directions vice versa, observing, as it will be hardly possible to cross the flats in one tide, you will have to lie a tide in the mud.

The country surrounding, for some extent, appears alluvial, and is perhaps not equalled or surpassed in the world for fertility; its productions are amazing, and yet capable of great augmentation under a more liberal Government, consisting of rice, sugar, arrack, turmeric, sapan wood, rattans, cow-hides, and buffalo. These constitute the principal articles of export, the sugar being only bottoms, the superior white clayed sugar being a Government monopoly, as well as the coffee entirely. These two latter articles are sold at Government sales at Batavia, at indefinite periods, that depending mostly upon the state of their coffers.

The Maats Chapye seem to enjoy very peculiar privileges, to the exclusion of the British merchants, whom it would seem the Dutch are anxious to weed out from amongst them. I do not think it in very strict observance of the treaty between the two countries. Having spoken of the two principal articles of their growth as monopolies, it must be understood that they are taken possession of immediately from the grower, scarcely allowing him sufficient for his own consumption, and sold just at what period best answers the views of the Government. The coffee grower has but little left him after the Government exactions of somewhere about three-fourths of the total value. With sugar, as the production of it is in its infancy there, greater privileges are given to the cultivator. I believe pecuniary assistance, or lands, is given, to enable him to meet the great expense of steam machinery. But when at maturity, the sugar planter must expect no better usage than the coffee grower. The natives, it is needless to say, under such oppressive taxes, make out a miserable subsistence. The different degrees of respect paid to Englishmen and the Hollander, throughout Java, are very

striking. Of rice, the average export of this district is about 12,000 to 16,000 tons; coffee produced about 7,000 or 8,000 tons; sugar, in this and the eastern districts, for the season of 1833, was expected to be about 14,000 tons—a considerable increase will take place in its production. The port of Soerabaya is doubtless the best in Java; smooth water at all seasons, a tide about nine feet, excellent holding-ground, not so pestilent as Batavia, a convenient river, a delightful country around, pleasant mansions and hospitable people: indeed there seems, if possible, more good fellowship amongst the residents themselves, viz., those belonging to the two flags, than is to be met with in Batavia. But it is with much delight that I can bear witness to the uncommon hospitality, and high integrity of the British merchants in Java; like those in China, their word is their bond; even with every Chinese trader, the word of an English merchant will pass current for thousands—well and nobly do they uphold their character.

Direction from Soerabaya to the Westward.

For four miles you cannot go wrong, for fishing-stakes in either side. If not high-water, you will then perceive abreast of you, to the Eastward, the Buffles, two islets or rocks, the outer one rarely covered; there are fishing-stakes outside of them, on the western side, in the bight between the town of Grisse and Soerabaya are the Pysangs, an extensive shoal; it is out of the way of running ships, and there is an abundance of room for plying outside of it; but if borrowing this way, you will deepen from seven in the fair way to ten fathoms upon the very edge; you must tack immediately, or you will be on them. After passing Grisse, keep rather towards the stakes on Madura side, to avoid the Banka tree, which commences immediately from Grisse, and occupies the whole of this western bight. Towards the shoal the bottom is foul, and unfit for anchorage. By keeping over on the Madura side, and steering from stakes to stakes, in plenty room, with seven fathoms, clear of all danger, with a favourable wind and tide, you will soon see Fort Ludowick on the outermost island from the western side, and Bankalan pier on the eastern. N. by E. is your course, keeping still towards the Madura stakes. The spit of soft mud from Fort Ludowick has a beacon on it, in a quarter less three fathoms: here the channel begins to narrow, and the set of tides is various and strong. With the flagstaff west, and Point Panka north-west, come no nearer to the Fort, or you will be on the spit; the beacon bears about N. N. W. of Point Panka. Both banks are steep to the channel, a bare three-quarters of a mile wide; towards the spit, if drawing in with the tide, you will have twelve, five, and three, rapidly, and aground as quick. From the beacon, the flagstaff bears S. W. and the Regent's White Wall Zidayo, N. W. by $\frac{1}{2}$ W. In passing the beacon, it is usual to anchor a boat N. by W. of it, in about three fathoms. There is sufficient tide to back and fill through. On the first of the tide the water is very turbid, but after a little it subsides, and you can see the shoal water on either side, during the easterly monsoon; in the westerly or rainy monsoon it is not so, you will then experience a tide of five knots here.

After being passed this danger, the fishing stakes will lead you up to the first beacon on the starboard or eastern side. The channel is nearly N. W. and S. E. both sides beacons; on the Panka side, until you have passed the first two beacons, it is rocky bad ground; do not borrow on this side. The first beacon on the sea bank is in two fathoms and a half, hard ground; after that soft mud; borrow more towards it. In coming from northward and westward, you will observe three remarkable flat hummocks, called the Coffins of Dood Kists; when you shut the two in behind the north-east, astern of the largest, you will be able to see the first beacon on Madura flat. The above direction may be then easily applied in the opposite way, if bound to Soerabaya.

Philippine Islands.—Rock in the Track to Manila.

Ship struck.

We are indebted to a correspondent for the Leith Commercial List, containing the following account of a dangerous rock lying immediately in the track of ships running for Manila from the eastward.

The following communication is from Mr. John H. Robertson, commander of the barque *Ninerva*, of Alton:—"When bound from Sydney to Manila, on the 10th of September, 1834, at 2 A. M. the vessel struck on a sunk coral rock, (not laid down in any of our English Charts,) bearing from Point St. Iago, Island of Luconia, one of the Philippine Islands, E. S. E. $\frac{1}{2}$ E. four or five miles distant. Within half a mile of the rock there are seventeen fathoms. Point St. Iago lies in about 13° 41' N. Latitude, 126° 38' E. Long." Some years ago an American ship was lost upon the same rock.

On referring to the Chart, we find the tracks of the Spanish vessels *Descubierta* and *Atrévica*, within a very short distance of this danger, and we would remind navigators, that, as the Spanish Survey was by no means a minute one, there may be many other dangers yet

unknown in the channels between these islands. By keeping mid-channel, and not hauling to the northward until Point St. Iago bears east, this rock would be avoided.

New Shoals in the Eastern Seas :—Ships struck.

The following accounts of two dangerous shoals in the China and Java Seas have been presented to us by that enlightened Hydrographer Captain Horsburgh.

Omega Shoal, although not far distant from Batavia, had escaped the notice of Navigators, until discovered by Captain Russell, of the American Ship Omega, according to the following account which he has transmitted.

The Ship Omega, under my command, in March, 1835, struck on a coral shoal, and remained on it 25 hours, beat off her rudder, and received some damage in her bottom; she was got off by throwing cargo overboard to the value of about 15,000 dollars; and she was obliged to be hove down at Onruth, near Batavia, for repairs.

This shoal is steep to, extends N. N. E. and S. S. W. 150 to 200 yards, and about 70 in breadth; with from 10 to 13 feet water, and bears about E. by S. from the South end of the North Watcher, distant one mile and a quarter. There is a channel between the island and the shoal, with 12 fathoms water.

Owen Shoal, in Lat. 8° 8' N. Long. 112° E. by two chronometers agreeing, in a run of ten days from Macao, has been discovered in May, 1835, by Captain Owen of the Ship David Scott, on her passage from Canton to England. She struck on it at noon, steering S. S. E. having had soundings at 6 to 4½, and once 3½ fathoms, and at 1 P. M. she cleared the shoal, having then no bottom. This shoal appeared to be about two miles in extent, composed of black and white speckled coral, and seemed to be in a state of rapid accretion, from the vitality and energy of the madrepores in the recent formations of large pieces of coral brought up by the lead. While crossing the shoal, the patches of variegated coral were bright and alarming, but no breakers were perceived, as the sea was then very smooth. In stormy weather, however, when the sea runs high, they probably break, and a large ship would be liable to strike.

REVISED RULES FOR THE TOLLS ON THE "OOLOOBARIA" AND "BAUGNAUN" CANAL.
Sanctioned by Government on the 2d of August 1836, and to take effect from 1st of September, 1836.

I.—All persons, Europeans or Natives, are required to pay the amount of Toll demanded according to the following authorized Rules and Rates.

II.—Application for redress of unnecessary delays at the Tolls, extortion or any other grievance, are to be made to the Executive Officer, Mr. W. F. Pennington, at Midnapore.

III.—Toll Chokies are to be stationed at "Ooloobaria" on the Hooghly, and at "Noufulla" on the Roopnarain Rivers, at each of which Half Toll will be collected, as Boats may pass through.

IV.—Boats refusing to pay Toll will be detained or refused admittance, and if necessary, application will be made to the Police authority for assistance, should any violence be used or forcible attempts made to evade paying Toll; the Collecting Officers will take care to secure evidence to support their conduct, and they will at the same time be careful that no unnecessary delays take place, and that neither by their own conduct or that of their subordinates, cause of offence be given in any respect, as it will, on proof, be met with severe punishment.

V.—All Boats entering either Division of the Canal from the Damoodur River shall be subject to Toll even though they may not pass the Chokies.

VI.—Boats entering are not allowed to remain stationary within the Canal Chokies more than one tide. All Boats of whatever description staying a longer time, will be subject to payment of Toll for every additional tide they shall so remain.

VII.—These Rules and Rates are to be written in English and Bengally, posted and exhibited on a board at the Toll Chokies, and a copy in same manner is to be deposited at the Police or Chaut Chokies for general information.

Rates of Half Toll to be levied on Boats entering or passing through the Ooloobaria Canal, at each Choky.

Co.'s Rs. As. P.	
1st.—All Boats of Burthen, per 100 maunds burthen.	The Tolls to be levied according to the burthen, at Two annas per 100 maunds.
2d.—All Pinnaces or Bugerows, ditto.	
3d.—All Bealeahs, ditto.	
4th.—All Paunceways, ditto.	
5th.—Floats of Bamboos, per 100 Bamboos,	0 2 0
6th.—Rafts of Timber, per Timber,	0 1 0
7th.—Loads of Hay or Straw, each load, ..	0 13 0

(Signed) Wm. BELL, Supt. Pub. Works, P. Ckr
NOTE.—It is intended that the above Canals shall be annually shut up about the month of December, to clear out the deposit from the tides.

W. B., Supt. P. W. P. C.

NOTICE.—All the Letters received at this Office, marked for transmission to Penang, Singapore, and Malacca, respectively, by the "Haidie," have been forwarded by H. M. S. Wolf, the destination of the "Haidie" having been changed.

The Letters for Moulmeine which were marked for despatch by the "Phoenix," have also been forwarded by H. M. S. Wolf, in consequence of the "Phoenix" having put back from Sea.

The undermentioned Transfers of Letters were effected in consequence of the Packets not reaching Kedgerce, in time to overtake the Vessels for which they were originally intended :

The Calcutta Gazette.

Published by Authority.

It is requested that Government Notifications for the Calcutta Gazette, of any length, may be sent to the Press before Noon of Friday, and those of a few lines only before 5 P. M. of that day.

SATURDAY, SEPTEMBER 3, 1836.

FORT WILLIAM,

GENERAL DEPARTMENT, THE 26TH JUNE 1832.

ALL Public Officers of Government sending Advertisements to the Calcutta Gazette for publication, are hereby directed to make them as short as possible, and to specify always how many times the Advertisement shall be repeated.

By Order of the Hon'ble the Vice President in Council,

H. T. PRINSEP, Secy. to the Govt.

FORT WILLIAM,

FINANCIAL DEPARTMENT, THE 15TH JUNE, 1836.

NOTICE is hereby given, that under instructions just received from the Honorable Court of Directors, the following Terms and Conditions for making Advances upon the Goods and Merchandize of Individuals intended for Consignment to England re-payable to the Court of Directors of the East India Company, have been substituted for those contained in the Advertisement of this Department, dated the 27th October 1834.

1st.—The parties to whom Advances may be made shall agree that the respective Consignments be delivered into such Warehouses as the Court of Directors may approve: and that they be subject to the Control of the Court of Directors until the lien of the Company upon the Consignment shall have been satisfied.

2d.—Upon each Consignment, the value of which is to be ascertained by the Officers of the Indian Governments, or Authorized Agents of the East India Company, an Advance not exceeding two-thirds of such ascertained value will be made.

3d.—For re-payment of the Advance, Bills of Exchange to be drawn in triplicate, at six months sight, at the rate of—

Per Company's Rupee for Advances made at	Bengal.
Ditto	Ditto..... Madras.
Ditto	Ditto..... Bombay.
Per Spanish Dollar, Ditto.....	China.

4th.—The Parties will be required to place in the hands of the Board of Customs, Salt and Opium, Bills of Lading of the Consignment and Policies of Insurance effected thereon, both in triplicate. The Bills of Lading must be drawn deliverable to the East India Company, or endorsed to the order of the East India Company. The Policies of Insurance must be effected in the name and on behalf of the East India Company, as the Parties interested, or endorsed to their order; but persons desirous of effecting the necessary Insurance in this Country, and of depositing the Policies in the Company's Treasury, will be allowed to do so.

5th.—In case of default being made either in acceptance, or payment of the Bills, the Court of Directors to be authorized, in such manner and at such times as they may see fit, to sell the Goods, for the purpose of re-paying the Company the

amount of the Advances made thereon, including Freight and any other charges or expenses which the Company may have incurred on account of the Consignment, together with interest, should any have accrued; the Company, on the other hand, allowing discount, where any part of the proceeds shall be realized before the Bills fall due, and the settlement of either surplus or deficiency shall be made with the Consignor; and if in India or China by the Government or Agents from whom he received the Advance, at the rate of exchange at which the Company may at the time be drawing Bills upon such Government or Agents.

6th.—An Agent in England shall be appointed for each Consignment, to whom the Court of Directors shall be empowered to make over the Goods, subject to all the conditions agreed upon with the Company, on payment of the Bills; and with whom they shall be authorized to transact generally all business relating to such Goods. The Consignor shall be at liberty to make provision, in case of the Party upon whom the Bill is drawn, (being also the Agent) having failed to accept the Bill, for the substitution of another Agent.

7th.—After the arrival of the Goods in England and when they shall have been placed in such deposit as may have been agreed upon, the Agent may be put into possession of them before the Bills become due, upon the amount of such Bills (less discount) being paid, together with the Freight and any other charges and expenses which the Company have paid or may be subject to on account of the Goods.

8th.—The rate of Discount to be allowed by the Company shall be the same as that charged by the Bank of England.

9th.—It is expected that Parties or their Agents will cause the Goods to be Insured from fire, such Insurance to take effect from the date of the termination of the Sea risk; as the East India Company will not undertake to effect any Insurance upon them.

10th.—Parties receiving Advances, to address in each instance a Letter in quadruplicate to the Court of Directors, according to a form which will be furnished by the Officers of Government (or authorized Agents of the East India Company), signifying their assent to all the foregoing conditions, but more particularly for the purpose of expressly authorizing the sale of the Goods by the Company (without either notice to or concurrence of any person whatsoever) at any period after default shall be made either in acceptance or payment of the Bills; also authorizing, in such cases, the re-paying to the Company the Advances made, either principal or interest, together with any other charges or expenses which the Company may have incurred in respect of the Goods, and appointing the Agent in England for each transaction.

NOTICE.—The following Directions are published by Order of the Right Hon'ble the Governor of Bengal, for general information :

DIRECTIONS for SHIPS passing through the STRAITS of MADURA to SOERABAYA by CAPTAIN A. FRASER.

The *Lady Hayes* found twelve and thirteen fathoms through, inside Katampang, during the night, in which situation she found herself unexpectedly, after bringing Passurwang to bear S. by W. about eight miles distance, not intending to take a Pilot, steer N. $\frac{1}{2}$ W. by compass, being careful not to go to the Westward of this course, to avoid the dangers on the Java shore; or, perhaps as well steer North, keeping in twelve or thirteen fathoms, you will observe a remarkably smooth conical peak to the Westward of you; with that bearing W. by S. you should be in twelve fathoms; W. S. W. in seven fathoms and a half. As the water begins to shoal, then alter course to N. E. by N. and run two miles; if you should shoal under six fathoms and a half, keep her N. N. E. you will by this time have the peak S. W. and less water, perhaps quarter less six, at about eight miles from the Straits. Now steer North, and in a distance of three miles you will shoal to a half three, soft bottom, if in the channel; if hard, rather, too near the Java shore, but, as from hence you can see the beacon that marks the edge of the shoal water on the Madura side, it being of timber, with a bamboo topmast, and bearing about N. N. W. five miles distance from you, steer direct for it, till within one and a half or two miles of it. Edge away about N. W., according to tide, you will or ought to come within half a mile of it; then bring her up gradually to W. by N. keeping close round the fishing-stakes, (Madura side,) where the water deepens to seven fathoms, soft bottom, keep rather to the Northward, for by hauling in too soon for the Shipping, you may get on a hard bank to the S. E. of the river's mouth.

It may be well to observe here, that the island off Tamba river, in Horsburgh's Charts, does not exist; but there is a rock or reef, dry at low-water, close to the Java shore. The rock or shoal in same Chart bearing N. N. E. of Passurwang is not known to the Pilots, but the courses given will lead clear of its site, and also the dangers off Bandigan; which island by following the above directions, you will not see; it should be carefully avoided, unless going between it and Madura, where I understand there is a good and safe channel. The Madura side of this gulf is best during the south-east monsoon, the winds being far more regular, off Belega there is a bank, but there is plenty room to avoid it, as it does not extend far off.

Having brought up in Soerabaya roads, you will do well to await the visit, if you do not wish to incur port charges, when you will ascertain the port regulations. There is a vigilant eye upon strangers from the Guardship; therefore, if not allowed, do not let your boat be seen in communication with any other vessel. The port charges for anchorage, per last of about two register tons, is one guildier or rupee; pilotage seven-rupees per foot each way, one-third copper and two-thirds silver, the latter about one-eighth sterling each. If bound to the eastward from hence, you may easily apply these directions vice versa, observing, as it will be hardly possible to cross the flats in one tide, you will have to lie a tide in the mud.

The country surrounding, for some extent, appears alluvial, and is perhaps not equalled or surpassed in the world for fertility; its productions are amazing, and yet capable of great augmentation under a more liberal Government, consisting of rice, sugar, arrack, turmeric, sapan wood, rattans, cow-hides, and buffalo. These constitute the principal articles of export, the sugar being only bottoms, the superior white clayed sugar being a Government monopoly, as well as the coffee entirely. These two latter articles are sold at Government sales at Batavia, at indefinite periods, that depending mostly upon the state of their coffers.

The Maats Chapys seem to enjoy very peculiar privileges, to the exclusion of the British merchants, whom it would seem the Dutch are anxious to weed out from amongst them. I do not think it in very strict observance of the treaty between the two countries. Having spoken of the two principal articles of their growth as monopolies, it must be understood that they are taken possession of immediately from the grower, scarcely allowing him sufficient for his own consumption, and sold just at what period best answers the views of the Government. The coffee grower has but little left him after the Government exactions of somewhere about three-fourths of the total value. With sugar, as the production of it is in its infancy there, greater privileges are given to the cultivator. I believe pecuniary assistance, or lands, is given, to enable him to meet the great expense of steam machinery. But when at maturity, the sugar planter must expect no better usage than the coffee grower. The natives, it is needless to say, under such oppressive taxes, make out a miserable subsistence. The different degrees of respect paid to Englishmen and the Hollander, throughout Java, are very

striking. Of rice, the average export of this district is about 12,000 to 15,000 tons; coffee produced about 7,000 or 8,000 tons; sugar, in this and the eastern districts, for the season of 1833, was expected to be about 14,000 tons—a considerable increase will take place in its production. The port of Soerabaya is doubtless the best in Java; smooth water at all seasons, a tide about nine feet, excellent holding-ground, not so pestilent as Batavia, a convenient river, a delightful country around, pleasant manners and hospitable people: indeed there seems, if possible, more good fellowship amongst the residents themselves, viz., those belonging to the two flags, than is to be met with in Batavia. But it is with much delight that I can bear witness to the uncommon hospitality, and high integrity of the British merchants in Java; like those in China, their word is their bond; even with every Chinese trader, the word of an English merchant will pass current for thousands—well and nobly do they uphold their character.

Direction from Soerabaya to the Westward.

For four miles you cannot go wrong, for fishing-stakes in either side. If not high-water, you will then perceive abreast of you, to the Eastward, the Buffles, two islets or rocks, the outer one rarely covered; there are fishing-stakes outside of them, on the western side, in the bight between the town of Grisse and Soerabaya are the Pysangs, an extensive shoal; it is out of the way of running ships, and there is an abundance of room for plying outside of it; but if borrowing this way, you will deepen from seven in the fair way to ten fathoms upon the very edge; you must tack immediately, or you will be on them. After passing Grisse, keep rather towards the stakes on Madura side, to avoid the Banka tree, which commences immediately from Grisse, and occupies the whole of this western bight. Towards the shoal the bottom is foul, and unfit for anchorage. By keeping over on the Madura side, and steering from stakes to stakes, in plenty room, with seven fathoms, clear of all danger, with a favourable wind and tide, you will soon see Fort Ludowick on the outermost island from the western side, and Bankalan pier on the eastern. N. by E. is your course, keeping still towards the Madura stakes. The spit of soft mud from Fort Ludowick has a beacon on it, in a quarter less three fathoms: here the channel begins to narrow, and the set of tides is various and strong. With the flagstaff west, and Point Panka north-west, come no nearer to the Fort, or you will be on the spit; the beacon bears about N. N. W. of Point Panka. Both banks are steep to the channel, a bare three-quarters of a mile wide; towards the spit, if drawing in with the tide, you will have twelve, five, and three, rapidly, and aground as quick. From the beacon, the flagstaff bears S. W. and the Regent's White Wall Zidayo, N. W. by $\frac{1}{2}$ W. In passing the beacon, it is usual to anchor a boat N. by W. of it, in about three fathoms. There is sufficient tide to back and fill through. On the first of the tide the water is very turbid, but after a little it subsides, and you can see the shoal water on either side, during the easterly monsoon; in the westerly or rainy monsoon it is not so, you will then experience a tide of five knots here.

After being passed this danger, the fishing stakes will lead you up to the first beacon on the starboard or eastern side. The channel is nearly N. W. and S. E. both sides beacons; on the Panka side, until you have passed the first two beacons, it is rocky bad ground; do not borrow on this side. The first beacon on the sea bank is in two fathoms and a half, hard ground; after that soft mud; borrow more towards it. In coming from northward and westward, you will observe three remarkable flat hummocks, called the Coffins of Dood Kists; when you shut the two in behind the north-east, astern of the largest, you will be able to see the first beacon on Madura flat. The above direction may be then easily applied in the opposite way, if bound to Soerabaya.

Philippine Islands.—Rock in the Track to Manila.—Ship struck.

We are indebted to a correspondent for the Leith Commercial List, containing the following account of a dangerous rock lying immediately in the track of ships running for Manila from the eastward.

The following communication is from Mr. John H. Robertson, commander of the barque *Minerva*, of Alloa:—"When bound from Sydney to Manila, on the 10th of September, 1834, at 2 A. M. the vessel struck on a sunk coral rock, (not laid down in any of our English Charts,) bearing from Point St. Iago, Island of Luconia, one of the Philippine Islands, E. S. E. $\frac{1}{2}$ E. four or five miles distant. Within half a mile of the rock there are seventeen fathoms. Point St. Iago lies in about 13° 41' N. Latitude, 120° 28' E. Long." Some years ago an American ship was lost upon the same rock.

On referring to the Chart, we find the tracks of the Spanish vessels *Decuberta* and *Astorida*, within a very short distance of this danger, and we would remind navigators, that, as the Spanish Survey was by no means a minute one, there may be many other dangers yet

unknown in the channels between these islands. By keeping mid-channel, and not hauling to the northward until Point St. Iago bears east, this rock would be avoided.

New Shoals in the Eastern Seas :—Ships struck.

The following accounts of two dangerous shoals in the China and Java Seas have been presented to us by that enlightened Hydrographer Captain Horsburgh.

Omega Shoal, although not far distant from Batavia, had escaped the notice of Navigators, until discovered by Captain Russell, of the American Ship *Omega*, according to the following account which he has transmitted.

The Ship *Omega*, under my command, in March, 1835, struck on a coral shoal, and remained on it 25 hours, beat off her rudder, and received some damage in her bottom; she was got off by throwing cargo overboard to the value of about 15,000 dollars; and she was obliged to be hove down at Onruth, near Batavia, for repairs.

This shoal is steep to, extends N. N. E. and S. S. W. 150 to 200 yards, and about 70 in breadth; with from 10 to 13 feet water, and bears about E. by S. from the South end of the North Watcher, distant one mile and a quarter. There is a channel between the island and the shoal, with 12 fathoms water.

Owen Shoal, in Lat. 8° 8' N. Long. 112° E. by two chronometers agreeing, in a run of ten days from Macao, has been discovered in May, 1835, by Captain Owen of the Ship *David Scott*, on her passage from Canton to England. She struck on it at noon, steering S. S. E. having had soundings at 6 to 4½, and once 3½ fathoms, and at 1 p. m. she cleared the shoal, having then no bottom. This shoal appeared to be about two miles in extent, composed of black and white speckled coral, and seemed to be in a state of rapid accretion, from the vitality and energy of the madrepores in the recent formations of large pieces of coral brought up by the lead. While crossing the shoal, the patches of variegated coral were bright and alarming, but no breakers were perceived, as the sea was then very smooth. In stormy weather, however, when the sea runs high, they probably break, and a large ship would be liable to strike.

A REPORT

ON THE

State of Education

IN BENGAL,

By WILLIAM ADAM, Esq.

Published by the Order of Government.

SUPPLEMENT TO

The Calcutta Gazette.

Published by Authority.

WEDNESDAY, SEPTEMBER 7, 1836.

FORT WILLIAM,

GENERAL DEPARTMENT, THE 26TH JUNE 1832.

ALL Public Officers of Government sending Advertisements to the *Calcutta Gazette* for publication, are hereby directed to make them as short as possible, and to specify always how many times the Advertisement shall be repeated.

By Order of the Hon'ble the Vice President in Council,

H. T. PRINSEP, *Secy. to the Govt.*

FORT WILLIAM,

FINANCIAL DEPARTMENT, THE 15TH JUNE, 1836.

NOTICE is hereby given, that under instructions just received from the Honorable Court of Directors, the following Terms and Conditions for making Advances upon the Goods and Merchandise of Individuals intended for Consignment to England re-payable to the Court of Directors of the East India Company, have been substituted for those contained in the Advertisement of this Department, dated the 27th October 1834.

1st.—The parties to whom Advances may be made shall agree that the respective Consignments be delivered into such Warehouses as the Court of Directors may approve: and that they be subject to the Control of the Court of Directors until the lien of the Company upon the Consignment shall have been satisfied.

2d.—Upon each Consignment, the value of which is to be ascertained by the Officers of the Indian Governments, or Authorized Agents of the East India Company, an Advance not exceeding two-thirds of such ascertained value will be made.

3d.—For re-payment of the Advance, Bills of Exchange to be drawn in triplicate, at six months sight, at the rate of—

s. d.

Per Company's Rupee for Ad-

vances made at	Bengal.
Ditto	Ditto..... Madras.
Ditto	Ditto..... Bombay.
Per Spanish Dollar, Ditto.....	China.

4th.—The Parties will be required to place in the hands of the Board of Customs, Salt and Opium, Bills of Lading of the Consignment and Policies of Insurance effected thereon, both in triplicate. The Bills of Lading must be drawn deliverable to the East India Company, or endorsed to the order of the East India Company. The Policies of Insurance must be effected in the name and on behalf of the East India Company, as the Parties interested, or endorsed to their order; but persons desirous of effecting the necessary Insurance in this Country, and of depositing the Policies in the Company's Treasury, will be allowed to do so.

5th.—In case of default being made either in acceptance, or payment of the Bills, the Court of Directors to be authorized, in such manner and at such times as they may see fit, to sell the Goods, for the purpose of re-paying the Company the

amount of the Advances made thereon, including Freight and any other charges or expenses which the Company may have incurred on account of the Consignment, together with interest, should any have accrued; the Company, on the other hand, allowing discount, where any part of the proceeds shall be realized before the Bills fall due, and the settlement of either surplus or deficiency shall be made with the Consignor; and if in India or China by the Government or Agents from whom he received the Advance, at the rate of exchange at which the Company may at the time be drawing Bills upon such Government or Agents.

6th.—An Agent in England shall be appointed for each Consignment, to whom the Court of Directors shall be empowered to make over the Goods, subject to all the conditions agreed upon with the Company, on payment of the Bills; and with whom they shall be authorized to transact generally all business relating to such Goods. The Consignor shall be at liberty to make provision, in case of the Party upon whom the Bill is drawn, (being also the Agent) having failed to accept the Bill, for the substitution of another Agent.

7th.—After the arrival of the Goods in England and when they shall have been placed in such deposit as may have been agreed upon, the Agent may be put into possession of them before the Bills become due, upon the amount of such Bills (less discount) being paid, together with the Freight and any other charges and expenses which the Company have paid or may be subject to on account of the Goods.

8th.—The rate of Discount to be allowed by the Company shall be the same as that charged by the Bank of England.

9th.—It is expected that Parties or their Agents will cause the Goods to be Insured from fire, such Insurance to take effect from the date of the termination of the Sea risk; as the East India Company will not undertake to effect any Insurance upon them.

10th.—Parties receiving Advances, to address in each instance a Letter in quadruplicate to the Court of Directors, according to a form which will be furnished by the Officers of Government (or authorized Agents of the East India Company), signifying their assent to all the foregoing conditions, but more particularly for the purpose of expressly authorizing the sale of the Goods by the Company (without either notice to or concurrence of any person whomsoever) at any period after default shall be made either in acceptance or payment of the Bills; also authorizing, in such cases, the re-paying to the Company the Advances made, either principal or interest, together with any other charges or expenses which the Company may have incurred in respect of the Goods, and appointing the Agent in England for each transaction.
